Grading and Evaluation Guidelines

GRADING PROCEDURES

The assessment of student achievement will be accomplished by gathering observable evidence of desirable musical behaviors.

Marking period grades will be based on the average of:

- Class participation (individual time on task)
- Individual music production assignments
- Tests and quizzes
- Original song composition projects.

In terms of proficiency level the East Brunswick grades equate to:

A	Excellent	Advanced Proficient
B	Good	Above Proficient

C	Fair	Proficient
D	Poor	Minimally proficient
F	Failing	Partially Proficient

COURSE EVALUATION

In Digital Music Experience, the goal is that a minimum of 95% of all pupils will achieve at least minimum proficiency (D or better) relative to the NJSLs set for this course. The department will review student achievement at all levels of proficiency relative to marking period grades, and if necessary, the individual components and assignments comprising these grades. Student achievement will further be analyzed to compare the achievement of the total enrollment vs. sub-groups to determine course areas requiring greater support or modification. As a result of the analysis, decisions will be made concerning modifications to course content and/or instructional methodology
