Course Overview

Students learn to create living spaces by designing floor plans and elevations to scale. Elements and principles of design such as color, pattern, light, texture, scale, balance and proportion are employed throughout the process. Perspective drawing for interior and exterior space will be the basis for on-site drawing and quick sketching. Board work as well as computer aided design will be used. Career skill development is focused on the attainment of the specific styles of drawing used by interior designers

Interior Design will introduce students to academic and career skills needed in the field of interior design. As an art elective, this course will deal with drawing and presentation skills including but not limited to scaled floor plans, elevations and models.

Grading and Evaluation Guidelines

GRADING PROCEDURES

Marking period grades will be based on the average of:

1. Class Performance (participation and quality of time on task)
2. Class exercises
3. Class Projects
4. Homework assignments

Final course grades will be based on:

1. Marking period grades (weighted 40% each)
2. Final exam including production and written components (weighted 20%)

In terms of proficiency level the East Brunswick grades equate to:

A	Excellent	Advanced Proficient
B	Good	Above Proficient
C	Fair	Proficient
D	Poor	Minimally proficient
F	Failing	Partially Proficient

COURSE EVALUATION

In Airbrush Technology, the goal is that a minimum 95% of all pupils will achieve at least minimum

proficiency (D or better) relative to the NJSLs set for this course. The department will review student achievement at all levels of proficiency relative to marking period grades, and if necessary, the individual components and assignments comprising these grades. Student achievement will further be analyzed to compare the achievement of the total enrollment vs. sub-groups to determine course areas requiring greater support or modification. As a result of the analysis, decisions will be made concerning modifications to course content and/or instructional methodology.
