Course Overview

This one-quarter, hybrid course is designed to help students better prepare for the verbal portions of the recently re-designed SAT exam. Utilizing a combination of in-person and electronic approaches, students will learn and experience the format, requirements, and strategies to allow them to perform their best on the exam. The class utilizes online resources, allowing students to take advantage of remote learning to work around their own schedules while still providing personalized help from the classroom teacher. The course will focus on evidence-based reading and writing tasks, as well as the optional essay component. Ideal candidates for this course are motivated, self-directed learners who are able to complete and submit tasks independently.

Grading and Evaluation Guidelines

GRADING PROCEDURES

Weekly Diagnostic Quizzes: (35% of course grade)

The students will complete these in Week 2 to determine the areas in which they need the most work. Once they complete the diagnostic test, the Khan Academy website will regenerate their weekly diagnostic tests, continually adapting to their needs. These quizzes may take anywhere between forty minutes to three hours a week and will track the students' mastery level. Each week they must complete a series of four diagnostic quizzes. The students will be graded on performance and improvement.

Weekly Discussion Posts:(20% of course grade)

Each week students will be required to write a paragraph discussion post on the classroom moodle by Thursday of each week. Each topic will be determined by the students' weekly objectives. Each initial post should be around 180 words. The students will be required by the end of each week (Sunday at midnight) to: a.) respond to two of their classmates' posts with thoughtful and insightful feedback, and b.) return to their initial posts and reflect on what they learned about their post from others' responses.

NoRedInk Online Practice: (20% of course grade)

The students will be practicing the skills from the class videos on Noredink.com. Each one-to-two-week unit includes a 15-20 minute diagnostic test, 30-50 minutes of Practice, and a 15-20 minute Post Test.

- The students will be graded based on completion for both the diagnostic quiz and practice.
- The students will be graded based on performance for the Post Tests.

Final Full-Length Test: (25% of course grade)

At the end of the course the students will take a second, full-length SAT verbal test to determine their improvement since the beginning of the quarter. This will determine a large portion of the grade, so it is important for students to make the most of the assignments to improve their scores on both the final and, more importantly, the actual test. This grade is based on a value added matrix; the students are not graded based on the actual final score but how much they have improved over the quarter in relation to the initial diagnostic test.

In terms of proficiency level the East Brunswick grades equate to:

A	Excellent	Advanced Proficient
B	Good	Above Average Proficient
C	Fair	Proficient
D	Poor	Minimally proficient
F	Failing	Partially Proficient
