Course Overview

COURSE DESCRIPTION

The entire accounting cycle is covered, from analyzing transactions to preparing financial statements. This course is designed around the New Jersey Core Curriculum Content Standards and will give students an overview of the business world from which they might make educated choices for further study. This course stresses skills necessary for success in the business world such as keeping neat, accurate records in a single proprietorship. Students are introduced to solving problems employing the latest accounting software while using state of the art computers. Business simulations are used to reinforce learning skills of the accounting cycle. College bound students who expect to major in accounting or in business will find this course provides them with an excellent background as preparation for college and the business world.

Grading and Evaluation Guidelines

GRADING PROCEDURES

In terms of proficiency level the East Brunswick grades equate to:

- A Excellent - Advanced Proficient
- B Good Above Average - Proficient
- C Fair - Proficient
- D Poor - Minimally proficient
- F Failing - Partially Proficient

COURSE EVALUATION

Each quarter students will be evaluated with tests and programming assignments using a total point basis to determine the quarter average. The semester/course average will be a weighted average of the 2 quarter averages (40% each) and a final exam (20%)

Course achievement will be evaluated based on the percent of all pupils who achieve the minimum level of

proficiency (final average grade) in the course. Student achievement levels above minimum proficiency will also be reported. Final grades, and where relevant mid-term and final exams, will be analyzed by staff for the total cohort and for sub-groups of students to determine course areas requiring greater support or modification.)
