#### **COURSE DESCRIPTION**

Prerequisite: Culinary Arts 1

Culinary Arts 2 is a semester course elective offered to students in grades 10-12. This food preparation course meets five days per week for forty two minutes. This course is designed to provide students with intermediate/advanced food preparation principles and techniques that allow students to live and work independently. Coursework builds and focuses on improving and perfecting skills previously learned in Culinary Arts 1. Course units include: advanced knife skills, vinaigrettes, plate presentation and introductory food photography, stocks and soups, hot and cold sandwiches, various International cuisines, desserts, and introductory careers in culinary.

Through lab work in small groups, the students gain confidence, employability skills and an appreciation of cultural diversity. Students participate in "QuickFires" where they are urged to design original recipes based on each unit. A highlight of the semester's work is a special, 'Iron Chef' culinary competition.

## **Grading and Evaluation Guidelines**

## **GRADING PROCEDURES**

In terms of proficiency level the East Brunswick grades equate to:

- A Excellent Advanced Proficient
- B Good Above Average Proficient
- C Fair Proficient
- D Poor Minimally proficient
- F Failing Partially Proficient

#### **COURSE EVALUATION**

Each quarter students will be evaluated with tests and programming assignments using a total point basis to determine the quarter average. The semester/course average will be a weighted average of the 2 quarter averages (40% each) and a final exam (20%); in a full year course, each quarter is worth 20% of a student's final grade and each exam (midterm & final) is worth 10% of the student's final grade.

Course achievement will be evaluated based on the percent of all pupils who achieve the minimum level of proficiency (final average grade) in the course. Student achievement levels above minimum proficiency will also be reported. Final grades, and where relevant mid-term and final exams, will be analyzed by staff for the total cohort and for sub-groups of students to determine course areas requiring greater support or modification.)

50 % Lab Grades: Recipe interpretation, proper use care and selection of utensils and equipment, measuring,

identifying and fulfilling lab tasks, exhibiting teamwork, demonstrating proper cooking techniques and thorough clean up and demonstrating responsible and respectful behavior.

20% Quizzes, tests, and projects

20% Class work assignments & folders

10% Professionalism/Employability
