Course Overview

COURSE DESCRIPTION

Introduction to Business is a half-year course designed to introduce the student to the environment of business today. Students will examine the world of business and how it can and does affect their lives. Ethical and social responsibility issues will be discussed, as well as the increasing importance of international (global) business. The course is designed to be an introduction to the business electives offered at the high school level. It incorporates marketing, accounting, economics, business ownership/entrepreneurship, management/organization, human resources, finance, investment, and legal aspects of the business environment.

COURSE EVALUATION

Course achievement will be evaluated based on the percent of all pupils who achieve the minimum level of proficiency (final average grade) in the course. Student achievement levels above minimum proficiency will also be reported. Final grades, and where relevant mid-term and final exams, will be analyzed by staff for the total cohort and for sub-groups of students to determine course areas requiring greater support or modification.)

12051 Introductory Business

Introductory Business courses survey an array of topics and concepts related to the field of business. These courses introduce business concepts such as banking and finance, the role of government in business, consumerism, credit, investment, and management. They usually provide a brief overview of the American economic system and corporate organization. Introductory Business courses may also expose students to the varied opportunities in secretarial, accounting, management, and related fields.
