Course Overview

The Level **Italian VIH** curriculum is designed to enable learners to meet the Intermediate-Low/Mid Level of proficiency as defined by the American Council on the Teaching of Foreign Languages and the New Jersey Student Learning Standards. It is designed to move students along the proficiency continuum from Novice-High to Intermediate-Mid. The Standard of World Languages, which addresses communication, culture, connections, comparisons and communities, is integrated into instruction. Each thematic unit addresses all modes of communication set forth by the NJ State Student Learning Standards for World Languages. The course also reinforces and contributes to the development of other standards in the areas of Career Readiness, Life Literacies, and Key Skills, Computer Science and Design Thinking, Visual and Performing Arts, Language Arts Literacy, and Social Studies.

In order to get a sense of the styles and needs of their future incoming students, the university is sponsoring an interior design contest in which students from all over the U.S. submit their design plans and ideas for a “Dormitorio da Sogno – or dream dorm”. The winning design team gets to go to Rome to help set up the new building and live in the dorm for free for a whole semester. Since you and your classmates have always been very interested in studying abroad in Italy you decide to enter the contest.
			2) How do student dormitories affect a student’s overall university experience?	
			3) How does housing vary among diverse social groups and from urban to rural areas?	
			1) How does living in a big city shape your identity?	After learning about the American University of Rome, you’ve become intrigued by the idea of studying and living in Rome one day. Being a student from a suburb like East Brunswick, you start to think about how different life living in a big city like Rome would be. You hear about an Italian film called “Caterina va in Città” about a girl who moves from her small Italian town to Rome and how she adapts to life in the big city. After watching the film, you realize that this transition was pretty difficult for her and you wonder what you would have handled the situations in which Caterina found herself. You also learn about some of her coping mechanisms and decide to try them out for yourself.
MP2	Personal and Public Identities	Big City Life, Politics, Adolescent Relationships/Conflicts, Youth Culture	2) How do the aspirations of parents affect the lives of their children?	
			3) What role does politics play in youth culture?	
MP3	Global Challenges	Immigration, Multiculturalism, Human Rights	1) How do challenging issues affect a society’s culture?	After discussing whether or not 16 years olds should be given the right to vote, you’ve learned that Italy has some unique laws regarding who is allowed to vote. Incredibly, children of immigrants who are born and raised in Italy are not automatically entitled to citizenship and therefore do not have the right to vote. You continue to read into the experiences and testimonials of immigrants in Italy. After you continue to read into these personal experiences, you hear about the world famous Orchestra di Piazza Vittorio, an orchestra in Rome, composed of immigrant

You watch the film that documents the creation of this orchestra and you are inspired by the multiculturalism that it represents. After being in contact with an Italian school studying immigration and multiculturalism in the United States, you compose a presentation with examples of multiculturalism, like the Orchestra di Piazza Vittorio, to show the students in Italy that the United States is also very multicultural.</p> <p>After falling in love with the music created by the Orchestra di Piazza Vittorio, you realize that it is just the tip of the iceberg when it comes to music in Italy. Italian is literally the language of music, in which many musical terms have their roots. However, no aspect of Italian music is quite as famous as opera. Where else could a study of Italian music begin? Because it is tough to know where to begin in such a topic, you and your classmates decide to read up a bit on opera in general and some of the Italian musicians that are most closely associated with it. After learning a bit of background information and some of the most famous Italian operas, you decide to listen to one! You and your classmates discuss all aspects of the opera you listened to, but you can't help but wonder how these classical stories would be translated into the modern age? What would La Bohème or Aida look like today? Why not create a modern version and find out?</p>
			1) How does music both challenge and reflect cultural perspectives?	
			2) How is music used to record history?	
			3) How do communities value beauty and music?

Grading Procedures and Evaluation

GRADING GUIDELINES

In accordance with Board policy, grades are assigned each quarter. A final grade is determined and transcribed for courses at grades 6 – 12. In terms of proficiency the East Brunswick grades are as follows:

A	Excellent	Advanced Proficient
B	Good	Above Average Proficient
C	Fair	Proficient
D	Poor	Minimally Proficient

F	Failing	Partially Proficient
----------	----------------	-----------------------------

Grades will be determined by a variety of assessment strategies. In addition to interpretive, interpersonal and presentational performance assessments, students will be evaluated on cooperative group participation, note-taking, open-ended question responses, interpersonal conversations, ePortfolios and/or supplemental projects.

Grading Weights for Quarter Grades

10% Homework

10% Classwork/Participation

30% Presentational and interpersonal speaking

50% Interpretive and presentational writing

Final grades are weighted as follows:

Each quarter is 20% of the final grade. The midterm is 10% of the final grade, and the final exam is 10 % of the final grade.

Midterm exam grades are averaged into the second marking period and final exam grades are averaged into the fourth marking period. The final grade for the course is the average of the four marking period grades.

COURSE EVALUATION

Course achievement will be evaluated annually. In this course the goal is that a minimum of 95% of the pupils will meet at least the minimum proficiency level (D or better) set for the course. The department will analyze the achievement of students on unit assessments and final course grades and for final course grades the achievement of sub-groups identified by the state to determine if modifications in the curriculum and instructional methods are needed.
