Course Overview

58031 Physical Education (Kindergarten)

Physical Education (grades K-2) courses typically emphasize knowledge and skills that lead to health, enjoyment, and social development through physical activity. Course content may include activities that strengthen gross and fine motor skills, body awareness, safety, and the relationship between physical activity and health. Specific content depends upon state standards for grades K-2.

COURSE DESCRIPTION Physical Education in grade K places an emphasis on the development of basic body movement, gross locomotor skills and rhythmic. The course emphasizes students to develop skills in sportsmanship and fair play, fundamental skills and techniques along with good body mechanics. There is an introduction to physical fitness for future testing. During this course students are expected to demonstrate a developmental state of all NJSLC CPI's from 2.1.2.A through 2.1.2 B, 2.1.2 D through 2.1.2 E, 2.2.4.A through 2.2.2.E, 2.5.2.A through 2.5.2.C and 2.6.A The course reinforces the learning of other Standards and CPI's being introduced and contributes to the development of mastery of other standards in the areas of Language Arts Literacy, Mathematics, Science and Technology Literacy.
