Unit Overview

This unit requires students to tackle the rigorous task of writing four chapters on the American Revolution. This includes two chapters that require research reports on the Revolutionary War using expository writing strategies and one historical fiction narrative chapter and lastly a persuasive essay based on historical texts. Unlike other units, this unit is purposefully scaffolded throughout to allow students to dive deeper into their research, making interpretations along the way. This unit teaches students how to research well, cite important sources and recognize conflicting perspectives about a topic. The challenging work of this unit asks students to collect, synthesize and organize their research into logical, structured chapters. This unit prepares students to

tackle more independent research endeavors later in their writing.

Enduring Understandings

1. Using specific structures, language conventions and strategies helps my readers to better understand my ideas, when I am writing an Information Research Essay.
2. Using a specific format when developing nonfiction writing helps a writer to organize their ideas and keep their reader interested.
3. Nonfiction writing can be thought provoking and interesting. Writers must use strategies to hold their reader's interest and bring information to life.
4. When writers are developing ideas they must go back and revisit their ideas and evidence to make sure that it supports their headings and subheadings.
5. Developing questions help to tailor your research in addition bias should be factored when considering multiple points of view.

Essential Questions

- How can I learn to write research reports by writing several research-based books, each teaching readers about a sub-topic related to the American Revolution? How can I learn to chunk my non-fiction books into chapters, to choose a structure/genre that works for each chapter, and to write each chapter in ways that weld together facts, quotations, stories, ideas? How can I learn a lot about my topics by doing this writing?
- Bend I:
 - How can I flash-draft a quick book on the American Revolution, doing this even before I engage in a lot of research, writing this book in a way that helps me get a handle on what I already know about the topic and also helps me get used to putting what I know into texts? How can I make a quick book that contains all-about chapters, a story with a turning point, and a quick essay about why the topic matters?
- Bend II:
 - How can I write another book on a sub-toic related to the American Revolution, this time working to make the writing as strong as it can be? How can I write in such a way that I choose an organizational plan that matches my content and work to forward my central ideas?
- Bend III:

- How can I write not only about the information but also about ideas, asking and exploring questions, and writing to think?

Closure

Such as:

- Grade 4 American Revolution Expert Fair (Publishing Celebration) - families are invited to celebrate. Students will teach their expert topics in groups and share writing with families and peers. Families and peers are encouraged to leave a complement regarding their use of expository writing strategies.
- Snowstorm - Students write down what they learned on a piece of scratch paper and wad it up. Given a signal, they throw their paper snowballs in the air. Then each learner picks up a nearby response and reads it aloud.
- Parent Hotline - Give students an interesting question about the lesson without further discussion. Email their guardians the answer so that the topic can be discussed over dinner.
- DJ Summary - Learners write what they learned in the form of a favorite song. Offer to let one or two sing thier summary.
- Gallery Walk - On chart paper, small groups of students write and draw what they learned. After the completed works are attached to the classroom walls, others students affix post-its to the posters to extend on the ideas, add questions.
- Sequence It - create timelines of major events discussed
- Low-Stakes Quizzes - Give a short quiz using technologies like Kahoot or a Google form.
- Have students write down three quiz questions (to ask at the beginning of the next class).

- Question Stems - Have students write questions about the lesson on cards, using [question stems framed around Bloom's Taxonomy](#). Have students exchange cards and answer the question they have acquired.
- Kids answer the following prompts: "What takeaways from the lesson will be important to know three years from now? Why?"
- Have students dramatize a real-life application of a skill.
- Ask a question. Give students ten seconds to confer with peers before you call on a random student to answer. Repeat.
- Have kids orally describe a concept, procedure, or skill in terms so simple that a child in first grade would get it.
- Direct kids to raise their hands if they can answer your questions. Classmates agree (thumbs up) or disagree (thumbs down) with the response.
- Have kids create a cheat sheet of information that would be useful for a quiz on the day's topic.
- Kids write notes to peers describing what they learned from them during class discussions.
- Ask students to summarize the main idea in under 60 seconds to another student acting as a well-known personality who works in your discipline. After summarizing, students should identify why the famous person might find the idea significant.
- Have students complete the following sentence: "The [concept, skill, word] is like _____ because _____."
- Ask students to write what they learned, and any lingering questions on an "exit ticket". Before they leave class, have them put their exit tickets in a folder or bin labeled either "Got It," "More Practice, Please," or "I Need Some Help!"
- After writing down the learning outcome, ask students to take a card, circle one of the following options, and return the card to you before they leave: "Stop (I'm totally confused. Go (I'm ready to move on.)" or "Proceed with caution (I could use some clarification on . . .)"

*Add to or remove any of these as you see fit.
