### Mission Statement: World Language

The Haddonfield Middle School World Language program offers students a doorway to other cultures through the study of French, German, or Spanish. In grades 6 and 7 we seek to create global learners who are encouraged to discover their voice through a second language. Students will develop interpersonal skills in a nurturing environment that fosters creativity, community and conversation. Our World Language program supports literacy, as well as cultural awareness by facilitating an understanding as well as an appreciation of others.

The skills acquired in grades 6 and 7 become the foundation for the 8th grade program. In grade 8, students will transition into the first level of their World Language. French I, German I, and Spanish I begins the student's formal language study. Students will interact and negotiate meaning with their peers to understand and analyze oral, written, or authentic texts and to create culturally appropriate oral and written products and presentations for a specific audience. The goal of the 8th grade World Language sequence prepares students for entry into level II of World Language at the secondary level.

### Vision

The World Language Program offers comprehensive world language instruction at all levels in a communicative and thematic approach to learning, in order to increase the capacity of students' language acquisition throughout the course of their academic careers

## **Unit Overview**

---

In this unit, students will be able to describe how they feel physically and how to talk about health and medical conditions. They will be exposed to the language in all forms of communication.

Following the ACTFL World-Readiness standards for learning languages, students as effective communicators use languages to engage in meaningful conversation, to understand and interpret spoken language and written text, and to present information, concepts, and ideas.

The Novice-High language learner has progressed from understanding and communicating at the word level to understanding and communicating at the sentence level and can use words, lists, and simple sentences.

## **Enduring Understandings**

---

Wellness practices may vary across cultures. (Topics that assist in the development of this understanding should include, but are not limited to: sports and physical fitness activities and common health conditions/problems and remedies.)

## **Essential Questions**

---

- What strategies can I use to communicate more effectively?
- What can I learn about my own language and culture from the study of others?
- Do you understand the patterns of the target language?
- How do I demonstrate an understanding of the similarities and differences, and interactions across cultures and languages?
- How do the role that health assume differ in societies around the world?

## **New Jersey Student Learning Standards (No CCS)**

## Closure

Such as:

- Gallery Walk - On chart paper, small groups of students write and draw what they learned. After the completed works are attached to the classroom walls, others students affix post-its to the posters to extend on the ideas, add questions.
- Low-Stakes Quizzes - Give a short quiz using technologies like Kahoot or a Google form.
- Have students write down three quiz questions (to ask at the beginning of the next class).
- Question Stems - Have students write questions about the lesson on cards, using [question stems framed around Bloom's Taxonomy](#). Have students exchange cards and answer the question they have acquired.
- Have students dramatize a real-life application of a skill.
- Ask a question. Give students ten seconds to confer with peers before you call on a random student to answer. Repeat.
- Have kids create a cheat sheet of information that would be useful for a quiz on the day's topic.
- Ask students to write what they learned, and any lingering questions on an "exit ticket". Before they leave class, have them put their exit tickets in a folder or bin labeled either "Got It," "More Practice, Please," or "I Need Some Help!"

- E-Dictionaries

---

## Special Education

List is not inclusive but may include examples such as:

- Shorten assignments to focus on mastery of key concepts.
- Substitute alternatives for written assignments (clay models, posters, panoramas, collections, etc.)
- Specify and list exactly what the student will need to learn to pass.
- Evaluate the classroom structure against the student's needs (flexible structure, firm limits, etc.).
- Seat the student close to the teacher or a positive role model.
- Use a study carrel. (Provide extras so that the student is not singled out.)

- 
- Provide an unobstructed view of the chalkboard, teacher, movie screen, etc.
  - Keep extra supplies of classroom materials (pencils, books) on hand.
  - Maintain adequate space between desks.
  - Give directions in small steps and in as few words as possible.
  - Number and sequence the steps in a task.
  - Have student repeat the directions for a task.
  - Provide visual aids.
  - Go over directions orally.
  - Provide a vocabulary list with definitions.
  - Permit as much time as needed to finish tests.
  - Allow tests to be taken in a room with few distractions (e.g., the library).
  - Have test materials read to the student, and allow oral responses.
  - Divide tests into small sections of similar questions or problems.
  - Allow the student to complete an independent project as an alternative test.
  - Give progress reports instead of grades.
  - Allow open-book tests.
  - Stand near the student when giving directions or presenting a lesson.
  - Mark the correct answers rather than the incorrect ones.
  - Permit a student to rework missed problems for a better grade.
  - Average grades out when assignments are reworked, or grade on corrected work.
  - Use a pass-fail or an alternative grading system when the student is assessed on his or her own growth.
