Course Pacing Guide

Mission Statement: World Language

The Haddonfield Middle School World Language program offers students a doorway to other cultures through the study of French, German, or Spanish. In grades 6 and 7 we seek to create global learners who are encouraged to discover their voice through a second language. Students will develop interpersonal skills in a nurturing environment that fosters creativity, community and conversation. Our World Language program supports literacy, as well as cultural awareness by facilitating an understanding as well as an appreciation of others.

The skills acquired in grades 6 and 7 become the foundation for the 8th grade program. In grade 8, students will transition into the first level of their World Language. French I, German I, and Spanish I begins the student's formal language study. Students will interact and negotiate meaning with their peers to understand and analyze oral, written, or authentic texts and to create culturally appropriate oral and written products and presentations for a specific audience. The goal of the 8th grade World Language sequence prepares students for entry into level II of World Language at the secondary level.

Vision

The World Language Program offers comprehensive world language instruction at all levels in a communicative and thematic approach to learning, in order to increase the capacity of students' language acquisition throughout the course of their academic careers

Unit Overview

Talk about things people like to talk about and how friendships are formed. Students learn to talk about things we like to do in our free time and express which activities we like and dislike and along with dislikes, learn to say if we agree/disagree with another person's comments in a respectful way. Students learn some key time expressions that we can use when talking about various activities and use all of these things properly in regular and inverted word order. Students will also learn which activities/interests German-speaking people prefer and how formalities/informalities delineated in German-speaking countries.

Enduring Understandings

Observing and participating in culturally authentic activities contribute to familiarization with cultural products and practices. (Topics and activities that assist in the development of this understanding should include, but are not limited to: authentic celebrations, songs, and dances.)

Essential Questions

- What strategies can I use to communicate more effectively?
- What can I learn about my own language and culture from the study of others?
- Do you understand the patterns of the target language?
- How do I demonstrate an understanding of the similarities and differences, and interactions across cultures and languages?
- Can you communicate effectively in German in the interpretive, interpersonal, and presentational modes?
