Unit Overview:

Team sports is something that many children are exposed to from a very young age. Team sports is a very important aspect of comprehensive health and pe that everyone should be introduced to at some point. In this unit, students will learn how to work efficiently with one another in order to reach a common goal. Team sports often has the image of aggression in many peoples' minds. However, in this unit, team sports will be introduced in a way that each student will be able to be successful on some level and reach their goals, without fear of embarrassment or failure. A variety of sports will be introduced in order to give each student the opportunity to find at least one activity that they enjoy and may continue practicing.

Essential Questions:

- How do team sports differ from individual sports?
- What are the benefits of team sports?
- Can participating in team sports benefit people throughout their entire lives?
- What types of team sports are there?

Enduring Understandings:

- Team sports are played in small or large groups of people, in which one team is working toward a common goal. Team sports can not be played alone.
- Team sports are a great way for people to learn about teamwork and accountability. It is important to know how to work well with others.
- The skills that one learns through team sports are skills that can be carried over into the workplace and one's everyday life.
- Team sports can include, but are not limited to, soccer, football, volleyball, lacrosse, ultimate frisbee, etc.
