

Honors PreCalculus Student Contract

Student Name: _____

Parent/Guardian email: _____

- I understand that this is an honors level course with honors-level expectations, and I understand that my work will be held to honors-level standards.
- I understand that I will have homework on a regular basis and that I am expected to complete the homework to the best of my ability. Students enrolled in Honors PreCalculus can expect to have homework 3-4 days per week *outside* of class.
- I understand that, in order to do the best I possibly can, I must stay current with my assignments; procrastinating or putting off assignments will result in low grades for the assignment and/or the course, and will hurt my ability to understand concepts.
- I understand Mrs. Magee is available for extra help during Delsea One (afterschool, if previously arranged).
- I understand **NO** cell phones, headphones, earbuds, smart/android watches are permitted in class.
- I understand that if I am absent for any reason personal, school related, field trip, etc, I will go on google classroom and Print out the notes and/or worksheet/homework assignment I missed. Read the section and fill in the missing notes. Keep track of specific questions you have. Try the worksheet/homework assignment you missed and come in prepared to ask questions
- I understand the main rule for this classroom is CARE. Care about yourself. Care about your classmates. Care about learning and making the most of each new assignment/lesson. From caring comes respect and courtesy. Whatever takes place in the classroom will be for the purpose of helping you and your classmates progress further down the road to understanding and mastering the subject. Be an asset to yourself and others. Private, irrelevant conversations, doing other assignments, ...etc during instruction time does not help you or your grade and is very distracting to the rest of us. So avoid them at all costs.
- I understand that if I do well in this course, I will be prepared for my course work in either AP Statistics, AP Calculus, or Honors Calculus.

This will be a rigorous, course but you will succeed if you work hard and actively participate in class. I expect the best from you and in return, you can expect my best efforts, providing the instruction, support, and encouragement for you to meet my expectations. Your success in this course is a joint effort among me, your parents, and of course you.

Please sign below to acknowledge that you have read, understand, and accept the above letter.
