

Unit #5 Global Challenges

Content Area: **World Language**
Course(s):
Time Period: **March**
Length: **6 weeks**
Status: **Published**

Unit Overview:

The French 3 Honors units follow the same sequence and topics as French 4 AP. However, the standards, lesson titles, and instructional strategies, and some of the formative and summative assessments, and technology differ. This was deliberately done in order to better prepare the students for the rigors of the French 4 AP course.

This unit explores how complex issues and phenomena affect people's lives in French speaking communities. Students will discuss what comprises a healthy lifestyle. Students will read, discuss, listen to and write about the themes of health and nutrition and food safety.

Essential Questions:

- How do environmental, political, and social challenges positively and negatively impact communities?
- What role do individuals play in identifying and potentially solving complex societal issues?
- How do challenging issues affect a society's culture?

Enduring Understandings:

- Environmental developments and environmental challenges often impact society, geography, and politics on a larger scale, which in turn affects families and communities.
- Individuals can positively or negatively influence the world around them.
- Francophones grapple with solutions in addressing contemporary global challenges.
