Linden Public Schools Vision

The Linden Public School District is committed to developing respect for diversity, excellence in education, and a commitment to service, in order to promote global citizenship and ensure personal success for all students

Linden Public Schools Mission

The mission of the Linden Public School District is to promote distinction through the infinite resource that is Linden's diversity, combined with our profound commitment to instructional excellence, so that each and every student achieves their maximum potential in an engaging, inspiring, and challenging learning environment.

LINDEN PUBLIC SCHOOLS

WORLD LANGUAGES PROGRAM PHILOSOPHY

Course Description

The study of world languages is an essential component in the education of the students of the 21st Century. As the rapid advances of globalization create a growing interdependence between diverse people and cultures, we must strive to prepare students to participate fully and responsibly in both local and global communities. Therefore, the Linden World Languages Department believes that every student should be given the opportunity to study a world language.

Language and culture are the foundation of human experience. We believe that all students must develop and maintain proficiency in English and at least one other language. The department believes that each student must be provided with a broad range of educational and aesthetic experiences in language study in order to enhance the development of the student's individual interests and talents, and to develop a form of empathy which acknowledges the dignity and worth of all people.

We believe that the World Language curriculum should provide a sequential program of communicative-based language instruction in grades K- through 12. We believe that language is acquired through meaningful interactive experiences enriched by culturally authentic content. Through language instruction students are provided opportunities to reach out to others across cultural and linguistic boundaries. The National Standards for World Languages instruction identifies five goals for language education: **Communication, Cultures, Connections, Comparisons, and Communities**. In the world language classroom, standards influence the curriculum, assessment, and instruction. The three purposes of Communication (interpersonal, interpretive, and presentation) form the heart. Culture is always embedded in the instruction. Connections, Comparisons, and Communities enrich the learning activities. The performance standards inform the assessments that show students their progress toward higher levels of proficiency in using the target language. The focus is on what students can do with the language they are learning.

The Linden World Languages curriculum is organized around these goals.

We believe World Language instruction must be characterized by progressive learning with instruction based on inquiry, solving real life problems and upon application of concepts. We believe that an appreciation of the individual student's learning style is necessary for success in language learning.

The LPS World Language curriculum explores themes across the content areas and makes connections to the multicultural dimensions of the 21st Century, fostering a greater respect for ethnic differences and an understanding of world cultures.

PROGRAM GOALS

World languages education provides learners with the essential language skills and cultural understandings in languages other than English necessary to live and work in a global, culturally diverse world.

Six general goals are reflected in this student-centered curriculum. Students will be able to:

Develop communicative competence and an understanding of other cultures.

As nations become increasingly interdependent, the need to communicate effectively in more than one language is essential. By interweaving the study of language and culture, our proficiency-oriented program seeks to broaden students' communication skills; to expand understanding and respect for differences; and to foster a sensitive appreciation with a positive disposition towards the languages and social traditions of others.

Demonstrate their abilities to learn another language.

Students must have experiences beginning in the early grades which lead to an understanding that language learning is an innate human capacity and that all children who speak one language should have the opportunity to learn another language commensurate with their individual learning styles and abilities.

Become problem solvers.

Students are expected to recognize problems, devise solutions with others, analyze advantages and disadvantages to the alternatives and evaluate the effectiveness of the strategies selected.

Read a variety of materials with comprehension and critical analysis.

Our sequenced, student-centered program synthesizes the development of reading skills and cultural awareness through the integrated study of art, music, history, and literature.

Write in clear, concise language for different purposes and audiences.

Students must learn to write and to explore themes and issues across content areas to respond to the demands created by growing diversity in the United States and economic interdependence worldwide.

Access technology-based communication and information systems.

Skills in the use of technology will facilitate career planning, improve workplace readiness and promote lifelong learning.

Linden Public Schools Secondary World Languages Curriculum

The themes and topic chosen for the Secondary world languages program lend themselves to the ACTFL goal of delivering instruction at least 90% in the target language, and the departmental goal of ensuring that we provide target language that is comprehensible and compelling to students. Thus, we begin with topics and scenarios that are the most familiar to students (self, family, school, etc.), making them comprehensible in the target language through scaffolding techniques and repeated exposures.

Note that these themes are repeated and expanded from year to year, building upon and enlarging the students' acquired battery of vocabulary and structures and moving the students towards higher levels of proficiency.

American Sign Language (ASL)

The differences between studying ASL and spoken languages can be profound. Students of American Sign Language learn how to communicate spatially, rather than arranging words sequentially into sentences. They face unique challenges due to the modality differences between speaking and signing. This involves language features like the use of space, eye gaze, classifiers, depicting verbs and cinematic techniques. Students engage in all three modes of communication— interpersonal, interpretive, and presentational by using the hands, face and body to express ideas while incorporating a variety of complex linguistic features, such as role shifting, semantic influences on message meanings and application of appropriate prosodic features to reflect the signer's intent and tone. Contrary to a linear language, ASL students are challenged to express their ideas while simultaneously using these complex units of meaning. In addition, students learn different ways to navigate conversational interactions like turn-taking, attention getting techniques, and the importance of maintaining eye contact.

Language Proficiency Levels

Unlike other NJ Student Learning Standards, the World Languages standard is benchmarked by proficiency levels, rather than grade levels. The levels are fully defined in the World Languages Performance Level Descriptors Table and are summarily reflected in the following proficiency statements:

- **Novice-Mid Level:** Students communicate *using memorized words and phrases* to talk about familiar topics related to school, home, and the community.
- **Novice-High Level:** Students communicate *using words, lists, and simple sentences* to ask and answer questions, to handle simple transactions related to everyday life, and to talk about subject matter studied in other classes.
- **Intermediate-Low Level:** Students communicate *using simple sentences* to ask and answer questions, to handle simple transactions related to everyday life, and to talk about subject matter studied in other classes.

- **Intermediate-Mid Level:** Students communicate *using strings of sentences* to ask and answer questions, to handle simple transactions related to everyday life, and to talk about subject matter studied in other classes.
- **Intermediate-High Level:** Students communicate *using connected sentences and paragraphs* to handle complicated situations on a wide-range of topics.
- **Advanced-Low Level:** Students communicate *using paragraph-level discourse* to handle complicated situations on a wide-range of topics.

Linden Public Schools World Languages Proficiency Targets

LPS WL curricula has been designed to be congruent with the New Jersey Student Learning Standards, ACTFL recommendations and best practices in L2 teaching. Outcomes have been designed to meet NJSLS cumulative progress indicators, moving students on the proficiency continuum from novice towards advanced levels. The chart below outlines the projected proficiency progress of students across the grade levels.

Outcomes are based on the current frequency of instruction currently delivered in district. Elementary students receive a period of instruction every six-days, middle school students every other day, and high school students attend daily classes.

Students who study the same World Language in grades 9-12 will be positioned to graduate with a proficiency level that meets or exceeds the Intermediate-Mid description. All 12th grade students who demonstrate proficiency at the Intermediate level will be given an opportunity to take an assessment that will qualify them if successful to earn the NJ Seal of Biliteracy.

Elementary to Middle School Proficiency Targets

Grade Level	Course	Projected Proficiency Outcomes
K-5	Elementary World Language	Interpretive: Approaching Novice Mid Interpersonal: Approaching Novice Mid Presentational: Approaching Novice Mid
6	6 th Grade World Language	Interpretive: Novice Mid Interpersonal: Novice Mid Presentational: Novice Mid
7	7 th Grade World Language	Interpretive: Novice Mid Interpersonal: Novice Mid Presentational: Novice Mid
8	8 th grade World Language	Interpretive: Approaching Novice High Interpersonal: Approaching Novice High Presentational: Approaching Novice High

Note: As students enter 9th grade, they may choose a new language of study. Students who have successfully completed WL Level 1 (demonstrating novice high proficiency) in the middle school may progress to World Language Level 2 in 9th grade.

High School Level Proficiency Targets

Grade Level	Course	Projected Proficiency Outcome
9-12	WL Level 1	Interpretive: Approaching Novice High Interpersonal: Approaching Novice High Presentational: Approaching Novice High
9-12	WL Level 2	Interpretive: Novice High Interpersonal: Novice High Presentational: Novice High
9-12	WL Level 3	Interpretive: approaching /intermediate low Interpersonal: approaching /Intermediate low Presentational: approaching /Intermediate low
9-12	WL Level 4	Interpretive: Intermediate mid Interpersonal: Intermediate mid Presentational: Intermediate mid

Note: Linden High School offers classes in Heritage Spanish for students who possess higher levels of proficiency than non-heritage students. Our heritage students vary greatly in the levels of literacy that they possess in their home language. Some arrive in heritage classes with stronger receptive skills (the ability to hear and understand Spanish) at a more advanced proficiency level than their non-heritage peers, but low proficiency rates in productive skills (speaking and writing). But this varies from student to student, as others do arrive in Heritage Spanish with higher productive proficiency levels. For this reason, projected outcomes are predicted in a more general fashion, addressing individual students needs with the goal of developing proficiency levels across the wide horizontal scope of the intermediate range towards advanced proficiency.

Grade Level	Course	Projected Outcome Overall Proficiency Levels
9-12	WL Heritage Level 1	Intermediate Low
9-12	WL Heritage Level 2	Intermediate Mid
9-12	WL Heritage Level 3	Approaching Intermediate High

Earning the NJ Seal of Biliteracy

The Seal of Biliteracy was an initiative started by Californians Together in 2008 to acknowledge and award bilingual and multilingual students. In 2011, it officially became legislation in California and now multiple states throughout the nation have implemented a statewide Seal of Biliteracy. On January 19, 2016, New Jersey became the 17th state to implement a legislated statewide Seal of Biliteracy. By achieving the Seal of Biliteracy, students demonstrate that they are able to speak, read, comprehend and write in two or more languages at a high level of proficiency.

The Seal of Biliteracy seeks to:

- Encourage students to study languages
- Certify attainment of biliteracy
- Provide employers with a method of identifying people with language and biliteracy skills
- Provide universities with a method to recognize and award academic credit to applicants seeking admission
- Prepare students with 21st century skills
- Recognize and promote second language instruction in public schools
- Strengthen intergroup relationships, affirm the value of diversity, and honor the multiple cultures and language of a community

The Seal of Biliteracy opens up opportunities for those pursuing higher education or joining the workforce. As the world increasingly becomes more global, the need for employees with bilingual and multilingual skills has increased.

Employers seek bilingual or multilingual individuals for reasons such as:

- Accessing expanding markets;
- Better serving customer needs;
- Reaching particular and wider ranges of audiences; or
- Opening a channel of communication with customers.

Linden's Multiple Pathways to Biliteracy

A long-term goal of the Linden Public Schools is to enable all students to graduate with high levels of language proficiency in at least two languages.

As described earlier in this document, having high levels of skills in at least two languages will equip our students to meet the demands and challenges of our interconnected, global world, and to play an active role as global citizens. At the secondary level, students have the opportunity to study a wide variety of World Languages: Chinese, French, Italian, and Spanish.

As a district, we value of the linguist and cultural diversity of our students, families and community. We understand the language and culture that our ELLs bring to our schools are the foundation that all further literacies will be built upon. We strive to provide culturally sustaining pedagogy, encouraging students to maintain and expand their home languages, while also achieving high levels of English language proficiency.

For this reason, the Bilingual, ESL & World Languages department encourages and facilitates testing for all qualifying 12th grade students so that they may have an opportunity to attain the NJ Seal of Biliteracy. In general, it is anticipated that all students who study a World Language in grades 9-12, will have attained or exceeded the intermediate-mid level of proficiency required to earn the NJ Seal of Biliteracy.

World Languages K-12

Linden Public Schools Elementary World Languages Curriculum

The themes and topic chosen for the elementary world languages program lend themselves to the ACTFL goal of delivering instruction at least 90% in the target language, and the departmental goal of ensuring that we provide target language that is comprehensible and compelling to students. Thus, we begin with topics and scenarios that are the most familiar to students (self, family, school, etc.), making them comprehensible in the target language through scaffolding techniques and repeated exposures.

Note that these themes are repeated and expanded from year to year, building upon and enlarging the students' acquired battery of vocabulary and structures and moving the students towards higher levels of proficiency.

The elementary World Language class is designed to accommodate students who are new to the target language as well as those who had the benefit of exposure to the language. Elementary World Language students receive one class period of instruction every six days. This gentle introduction to World Language study seeks to address affective factors so as to help young learners to feel comfortable and confident about learning a second language. This prepares students for success in the secondary World Languages program as students build upon this foundation, intensifying with increased meeting times and working on developing fluency while building upon the students' emerging literacy skills in both their L1 and L2.

Repetition, Recycling and Expansion

Second Language Acquisition Research informs us that learners acquire language not through the explicit teaching of grammatical structures, but through exposures to comprehensible input. Learners acquire language by hearing messages in the target language that they can understand. With that key SLA principle in mind, the World Languages curriculum seeks to establish core vocabulary drawn from the 100-200 most frequent words used in the target language. This vocabulary is introduced, reinforced, recycled and gradually expanded as students gradually develop the proficiency necessary to first listen and read increasingly complex messages (from words to phrases to paragraph level stories), then leading to their ability to produce original messages (speaking and writing) in the target language.

Teachers strive to provide students with ***comprehensible and compelling input***, delivered in the target language each day through activities (classroom routines, stories, music, interactions) designed to use language for authentic purposes rather than "language practice".

A well-designed World Languages class will have a variety of activities where the teacher interacts with students using target vocabulary and structures in an authentic communicative context. That is to say, rather than solely focusing on explicit teaching of grammatical structures and vocabulary, the teacher should instead present these items in the context of meaningful

content that is comprehensible and compelling to students. Current events, cultural representations (music, art, literature), the lives of our students, and academic content (connections to social studies, science, and math) form the ideal context for language learning when made comprehensible by a skillful teacher through scaffolding and careful design of comprehensible input.

As an example, the 200 most used words in every day communication are presented below for Spanish/English. Teachers will be able to interact with students in the target language in a comprehensible way as students develop mastery over the Super 7 Structures and these foundational vocabulary targets.

200 Most Common Words in Spanish (in order)

World Language Practices:

The practices are the skills that individuals who leverage their ability to speak multiple languages in their careers use on a regular basis. Because the purpose of World Languages is to provide students with the essential language skills and cultural understandings in languages other than English, many of the practices can be applied to daily life. These practices establish a strong link between communication and culture, which is applied when making connections and comparisons and in using language to function as part of local and global communities.

Curriculum writers and educators will want to consider how they can design learning experiences that will enable their students to develop these skills in conjunction with the skills reflected in the core ideas and performance expectations (ACTFL, 2012).

Practice	Description
Communicate	Communicate effectively in more than one language in order to function in a variety of situations and for multiple purposes.
Cultures	Learners use the language to investigate, explain, and reflect on the relationship between the practices and perspectives of the cultures studied. Learners use the language to investigate, explain, and reflect on the relationship between the products and perspectives of the cultures studied.
Connections	Learners use the language to investigate, explain, and reflect on the nature of language through comparisons of the language studied and their own. Learners use the language to investigate, explain, and reflect on the concept of culture through comparisons of the cultures studied and their own.
Comparisons	Develop insight into the nature of language and culture in order to interact with cultural competence.
Communities	Learners use the language both within and beyond the classroom to interact and collaborate in their community and the globalized world. Learners set goals and reflect on their progress in using languages for enjoyment, enrichment, and advancement.

A note on Performance vs Proficiency:

Unlike other content areas, the NJSLS – WL is benchmarked by proficiency levels. Below is a chart from *ACTFL Performance Descriptors for Language Learners* (2012) that shows how assessing for performance is different from assessing for proficiency.

The ultimate goal of world language instruction is for learners to attain high levels of proficiency, which allows them to use the language with ease and confidence in everyday interactions with native speakers and in the workplace. To attain proficiency, learners learn, use, and practice language that they acquire in a classroom setting. Spiraling and recursive performance in a world language leads to proficiency.

- *Performance* is defined as how well a learner uses language acquired in a classroom setting.
- *Proficiency* is defined as the spontaneous use of language in real-world situations that might occur when:
 - interacting with native speakers of the language, or immersed in a target language environment.

Assessing Performance	Assessing Proficiency
<i>Based on instruction:</i> Describes what the language learner can demonstrate based on what was learned	<i>Independent of specific instruction or curriculum:</i> Describes what the language user can do regardless of where, when or how the language was acquired
<i>Practice:</i> Tasks are derived from the language functions and vocabulary that learners have practiced or rehearsed but which are applied to other tasks with familiar contexts	<i>Spontaneous:</i> Tasks are non-rehearsed situations
<i>Familiar content and context:</i> Content based on what was learned, practiced, or rehearsed; all within a context similar but not identical to how learned	Broad content and context: Context and content are those that are appropriate for the given level
<i>Demonstrated performance:</i> To be evaluated within a range, must be able to demonstrate the features of the domains of a given range in those contexts and content areas that have been learned and practices.	<i>Sustained performance across all the tasks and contexts for the level:</i> To be at a level, must demonstrate consistent patterns of all the criteria for a given level, all of the time

Grade 3

Unit 1
Visiting Relatives
<p>The first topic, “Visiting Relatives” expands students’ core family vocabulary by bringing in stories of extended family members, focusing on aunts, uncles, and also presenting the cultural diversity of the cultural concept of families.</p> <p>The targets may be introduced with high interest stories involving target items, later providing students the opportunity to describe their own extended families. This unit, like all units in the elementary curriculum is structured to allow teachers the opportunity to provide a great deal of recycling and repetition of the key vocabulary and structures that students will need to develop acquisition of the L2.</p>

Essential Questions	Enduring Understandings
What strategies can I use to better understand unfamiliar language?	Listening for familiar words and watching the speaker for clues may help me figure out what the speaker is saying.
What strategies can I use to make myself understand as I learn a new language?	Even though I don't know all the words that are written, I can figure out the main idea by paying attention to titles, pictures, and familiar expressions. Using pictures, movement, and acting words out can help my classmates, my teacher, and others understand me.

Note: The essential questions and enduring understandings that we pursue are most often related to the understanding of what language is, how it is intertwined with culture, and developing strategies for coping and successfully communicating before full proficiency is acquired.

Stage 3: Learning Plan

The thematic units of the LPS Elementary World Language Curriculum have been designed to provide instruction and opportunities for students to develop increasing proficiency across the three modes of communication: interpretive, interpersonal, and presentational. The goal of the elementary World Language curriculum is to advance students from novice low to novice mid proficiency.

Therefore, teachers must use scaffolding strategies and limit the amount of new language introduced to ensure that students receive the required amount of repeated exposures to target vocabulary and structures to ensure comprehensibility and the development of fluency within the limited scope of our curricular targets.</p> <p>Natural Approach- A strategy that promotes communicative proficiency by providing real-world, authentic experiences and language experiences within meaningful contexts.</p>

What can students do with what they know about culture?

Investigate: Students can identify & distinguish how dates and phone numbers are written in the L2.

Reflect: Students can think about how some words sound alike and different compared to L1.

Interact: Students can share some information about themselves with students from the target culture.

Suggested Resources and Materials

Teacher selected materials should explore cultural diversity and multiple perspectives. Teachers should strive to access rich, cross-content materials, and provide opportunities for students to research, organize and communicate in the target language using technology.

Interdisciplinary Connections

The Elementary World Languages themes which connect to family, home, chores and holidays provide an opportunity for rich cross-curricular opportunities.

As the target language becomes an integral part of the curriculum, children will be able to add new dimensions to what they are already learning. Math, science, social studies, health, and career awareness are all woven into an interdisciplinary approach. Students will gain an insight that the study of their World Language offers much to their overall education.

Unit 2

Chores: Helping Around the House

“Chores: Helping Around the House” allows students to combine the elements of the family and to learn some basic home vocabulary as we take a closer look at the roles that each individual plays in maintaining a house. This theme will allow teachers to provide repeated exposures of vocabulary naming rooms of the house, family members in the house, and activities that take place in the home. Students will examine the role that they play in their own house and will discuss any chores or tasks that they must complete as a member of their household. Students will examine how other cultures maintain a home and how they also must complete certain tasks within the home depending on their role in the family system. Stories involving cleaning the house for a celebration will provide opportunities to recycle extended house and family vocabulary, as well as food, time, and other essential acquisition targets.

Essential Questions	Enduring Understandings
What strategies can I use to better understand unfamiliar language?	Listening for familiar words and watching the speaker for clues may help me figure out what the speaker is saying.
What strategies can I use to make myself understand as I learn a new language?	Even though I don't know all the words that are written, I can figure out the main idea by paying attention to titles, pictures, and familiar expressions. Using pictures, movement, and acting words out can help my classmates, my teacher, and others understand me.

Students can understand increasingly complex stories and messages containing the target vocabulary and structures used in this unit.	Students can answer questions about chores and home life, responding with yes/no, either/ or with brief phrases.	Students can retell a unit story by pointing to a photo and using target vocabulary and structures in memorized phrases and acquired language.

		Students can write about a familiar story made up of target vocabulary and structures when using scaffolding writing supports.

Grade 3

Unit 3

Celebrations and Activities in the Home

“Celebrations and Activities in the Home” allows students use vocabulary they have learned concerning foods, the home and family members, and use these items in an expanded context of activities in the home. Moving beyond chores, we will look at recreation and celebratory activities that take place in our home with our families. What do we do for fun in our homes? What do family celebrations look like? Students will examine how other cultures spend time in their home and what family gatherings and celebrations look like. Stories involving preparing for a family celebration will provide opportunities to recycle extended house, chore, food and family vocabulary, as well as other essential acquisition targets.

Teachers are to design IPAs at the designated proficiency level target of the class, providing tasks that given the students the opportunity to demonstrate their achievement of the targeted CPIs described in the units of the curriculum.</p> <p>Student performance on Integrated Performance Activities are graded using rubrics which provide the students with feedback about how their performance in the assessed interpersonal, interpretive and presentational tasks matched with the targeted proficiency level.</p> <p>This curriculum provides examples of ACTFL Rubrics for use with IPA tasks at the novice, intermediate and advanced levels. See the appendices at the end of this document.</p>	

Stage 3: Learning Plan

The thematic units of the LPS Elementary World Language Curriculum have been designed to provide instruction and opportunities for students to develop increasing proficiency across the three modes of communication: interpretive, interpersonal, and presentational. The goal of the elementary World Language curriculum is to advance students from novice low to novice mid proficiency.

Content	Activities	Methodologies
<ul style="list-style-type: none"> ▪ Greetings, farewells ▪ Introduction/names ▪ Colors ▪ Numbers ▪ Alphabet ▪ Classroom commands (i.e., stand up, sit down, listen, etc.) <p>Note: Cultural studies are embedded in each lesson through the use of culturally authentic stories, media and realia.</p>	<p>Incorporating a variety of activities to accommodate the learning styles of all students is a necessary requirement.</p> <ul style="list-style-type: none"> ▪ Linguistic Activities ▪ Logical-mathematical ▪ Spatial Bodily-Kinesthetic ▪ Interpretive, interpersonal and presentational ▪ Reading, listening, viewing ▪ Singing, drawing, dancing 	<p>Acquisition focused approach: teachers will provide students with compelling and comprehensible language activities in the target language, with the goal of > than 90% use of the target language. Therefore, teachers must use scaffolding strategies and limit the amount of new language introduced to ensure that students receive the required amount of repeated exposures to target vocabulary and structures to ensure comprehensibility and the development of fluency within the limited scope of our curricular targets.</p> <p>Natural Approach- A strategy that promotes communicative proficiency by providing real-world, authentic experiences and language experiences within meaningful contexts.</p>

Content

“Celebrations and Activities in the Home” allows students use vocabulary they have learned concerning foods, the home and family members, and use these items in an expanded context of activities in the home. Moving beyond chores, we will look at recreation and celebratory activities that take place in our home with our families. What do we do for fun in our homes? What do family celebrations look like? Stories involving preparing for a family celebration will provide opportunities to recycle extended house, chore, food and family vocabulary, as well as other essential acquisition targets.

Focus vocabulary & structural targets to be taught in a communicative context with stories, music and interactions:

Repeated exposures: Family member vocabulary Home / Rooms, Room activity vocabulary	Special occasions in the home Holiday dinners Sleep over	Birthday Party Birthday traditions Birthday cake Songs sung for birthday	Surprise Party Gifts For (a gift <i>for</i> someone)
--	---	---	---

Teachers should continue to repeat and recycle all previously used vocabulary to shelter the introduction of new vocabulary, and to help students to acquire proficiency with the core vocabulary and structures identified in the K-5 curriculum.

Repeated Exposures & Expansions of Elementary Vocabulary and structure Focus Targets	Colors Numbers Animals Family School Items	Familiar Places Familiar Activities School items Familiar Foods Hunger/Thirst	Days Months Time Weather Hot/Cold	There is To be To have To like To want To go
---	--	---	---	---

What will students be able to do with the language?

Interpretive Students can understand increasingly complex stories and messages containing the target vocabulary and structures used in this unit.	Interpersonal Students can answer questions about chores and home life, responding with yes/no, either/ or with brief phrases.	Presentational Students can retell a unit story by pointing to a photo and using target vocabulary and structures in memorized phrases and acquired language. Students can write about a familiar story made up of target vocabulary and structures when using scaffolding writing supports.
