## Course Description

Credits: 5

Prerequisite: Placement

Grade: 9

This course is designed for the student who has developed an exceptional proficiency in critical reading and thinking as well as advanced writing skills. Students are challenged with numerous fictional literary readings from several genres and related non-fiction. In addition, students complete many writing assignments and extensive outside readings. Students explore the modes of writing on a more sophisticated level; journal writing will address students' creative talents while other assignments will be analytical in nature. Students use MLA and The BIG6 information literacy model to conduct problem-based research projects.

## Unit Description

### Stage 1-- Desired Results

#### Unit Purpose:

"Guides are the big sister of the 'how to' piece so many of our students compose in elementary school. These guides — often informal and casual in tone — pack a punch in the streamlined information they provide. The mentor texts ... run the gamut and show the sheer variety of writing in this genre: guides to places, guides to completing simple tasks, visual guides that lean toward the world of infographics. Every student can write a guide to something" - Rebekah O'Dell, *Moving Writers* blog

In Honors English 9, students will write "how to"/ guides-- expository writing supported by research intended to inform their audience on a topic of choice. Inspired by Machetti & O'Dell's *Moving Writer's* blog, the purpose of this unit is to apply the NJSL Writing information skills while also considering the purpose of "how to"/ guides to read information widely and convey to an audience a synthesis of the best outside information. Students will engage in the writing process by gathering ideas from various informational sources, reading mentor critical reviews, collecting and implementing craft moves from professional authors, writing independently, and revising both independently and with peers. Students will self-select topics. Throughout the unit, students will demonstrate application of standards through individual conferences and drafting. By the end of the unit, students will demonstrate application of the

standards through a final informational guide.
