# **Unit 5: Construction**

Content Area: **Technology** 

Course(s):

Length:

Status:

Time Period: September 9 weeks **Published** 

## **Enduring Understandings**

# **Technology**

- -Safety standards and procedures must be followed to reduce the risk of injury.
- -Selecting the proper tool for a job reduces injury.
- -Material selection, preparation and assembly effects product durability and quality.

#### Art

- -An individual's informed choice and appropriate application of media, techniques and/or processes enhances personal expression and determine the quality of art.
- -Artists choose different tools, techniques, and materials to express specific ideas.

# **Essential Questions**

# **Technology**

- -What is craftsmanship?
- -How can we work efficiently without adversely affecting the project's outcome?

#### Art

- -How can art be put into motion?
- -Why is it important to experience different materials?
- -What makes an artwork successful or unsuccessful?

## Content

#### Goal

The goal of this unit is for students to utilize the knowledge and planning from the previous units to craft the scenery for the school musical.

## Suggested Activities:

- -Set Construction
- -Painting
- -Sewing

## **Skills**

- -Students will be able to construct the annual musical set in accordance with the predetermined plans and technical sketches.
- -Students will be able to explain the mechanics of any moving portions of the set.
- -Students will be able to collaboratively troubleshoot and rectify any malfunctioning set components.

#### Resources

- -Painting for Performance: A Beginners Guide to Great Painted Scenery, Sean O'Skea, 2016
- -Stock Scenery Construction Handbook, Bill Raoul and Mike Monsos, 2015

#### **Assessments**

- -Rubrics
- -Self/Peer Critique
- -Teacher Evaluation/ Reflection
- -Set Pieces

### **Standards**

## Technology

- 8.2.8.C.5 Explain the interdependence of a subsystem that operates as part of a system.
- 8.2.8.C.6 Collaborate to examine a malfunctioning system and identify the step-by-step process used to troubleshoot, evaluate and test options to repair the product, presenting the better solution.

### Art
