

# Unit 6: The Environment, Careers and the Future

Content Area: **World Languages**  
Course(s): **Spanish 2 CP, Spanish 2 Honors**  
Time Period: **Marking Period 3**  
Length: **10 blocks**  
Status: **Published**

## **Transfer Skills**

---

### Part 1:

The students will identify environmental problems and what the community can do to help

The students will identify current problems and their future solutions

### Part 2:

The students will discuss professions and how to be successful in the future

## **Enduring Understandings**

---

Learning a different language/culture leads to greater understanding of one's own language and culture.

Language learning involves acquiring strategies to fill communication gaps.

Geography and population affect the way of life in certain areas.

Daily activities of an area's people can negatively and positively affect the environment.

Environmental problems vary from country to country depending on the geographical and climatic features of the region.

The decisions one makes every day can affect future success.

The availability of jobs can vary from country to country.

## **Essential Questions**

---

How can I become a more effective reader, writer, speaker and listener in languages other than English?

How does the language I'm studying help me to better understand my native language?

What can I already communicate in my new language?

What can we do to protect animals and other living things?

How do the practices of our everyday lifestyles affect the current state of the environment?

How can someone be successful in the future?

How do the job opportunities in our country compare to those in Spanish-speaking countries?

## **Content**

---
