

Unit 2 - Number Comparison, Counting Data, and Understanding Addition

Content Area: **Mathematics**
Course(s): **Mathematics 1, Mathematics K**
Time Period: **November**
Length: **10 weeks**
Status: **Published**

Enduring Understandings

Compare numbers to 10

Classify and count the number of objects in each category

Understand addition as putting together and adding to, and understand subtraction as taking apart and taking from

Essential Questions

How do I compose/ addition and decompose/ subtraction numbers 0-10?

How do I compare and order numbers?

Content

Key Vocabulary

Topic 4: No new vocabulary introduced

Topic 5: category, classify, chart, tally mark

Topic 6 : in all, join, addition sentence, add, plus sign (+), equal sign (=), equation, sum

Count forward beginning from a given number within the known sequence (instead of having to begin at 1).

Understand the relationship between numbers and quantities; connect counting to cardinality.

Count to answer "how many?" questions about as many as 20 things arranged in a line, a rectangular array, or a circle, or as many as 10 things in a scattered configuration; given a number from 1-20, count out that many objects. *(benchmarked)

Identify whether the number of objects in one group is greater than, less than, or equal to the number of objects in another group e.g. by using matching and counting strategies.

Compare two numbers between 1 and 10 presented as written numerals.

Represent addition and subtraction up to 10 with objects, fingers, mental images, drawings, sounds (e.g., claps), acting out situations, verbal explanations, expressions, or equations. *(benchmarked)

Solve addition and subtraction word problems, and add and subtract within 10, e.g., by using objects or drawings to represent the problem.

Demonstrate fluency for addition and subtraction within 5 (by the end of Kindergarten). *(benchmarked)

Classify objects into given categories; count the numbers of objects in each category and sort the categories by count. *(benchmarked)

Skills

Students will:

- count orally by ones up to 50 , beginning at any number
- identify the last number named as the number of objects counted
- identify the next number name in counting as one greater than the previous number
- count to tell the number of objects arranged in a line, rectangular array, circle, or scattered configuration.
- count to tell the number of objects when asked “how many?” questions.
- given a number from 1-20, count out that many object.
- compare the number of objects (up to 10) in two groups.
- identify whether the number of objects in one group is greater than, less than, or equal to to the number of objects in another group.
- compare numbers (up to 10) written as numerals.
- create subtraction and addition events with objects (up to 10).
- create subtraction and addition events with drawings and sounds (up to 10).
- create subtraction and addition events by acting out situations and with verbal explanations.
- use objects and drawings to represent addition and subtraction.
- add and subtract within 10.
- add within 5 with accuracy and efficiency.
- sort objects into groups.
- sort the group by count.

Resources

EnVision Materials for Topic 4, 5, 6 including student edition worksheets, problem solving mat, interactive math story, vocabulary cards, and center ideas which are listed in each topic

<https://www.illustrativemathematics.org>

K.CC.A.2 Start-Stop Counting

K.CC.B.4 Counting Mat

K.CC.B.5 Finding Equal Groups

K.CC.C.6 Which number is greater? Which number is less? How do you know?

K.CC.C.7 Guess the Marbles in the Bag

K.OA.A.1 Ten Frame Addition

K.OA.A.2 Dice Addition 2

K.OA.A.2 What's missing?

K.OA.A.5 Many Ways to do Addition 1

K. MD.B.3 Sort and Count I

K. MD.B.3 Sort and Count II

Standards

MA.K.CC.A.2	Count forward beginning from a given number within the known sequence (instead of having to begin at 1).
MA.K.CC.B.5	Count to answer "how many?" questions about as many as 20 things arranged in a line, a rectangular array, or a circle, or as many as 10 things in a scattered configuration; given a number from 1–20, count out that many objects.
MA.K.CC.B.4c	Understand that each successive number name refers to a quantity that is one larger.
MA.K.CC.C.6	Identify whether the number of objects in one group is greater than, less than, or equal to the number of objects in another group, e.g., by using matching and counting strategies.
MA.K.CC.C.7	Compare two numbers between 1 and 10 presented as written numerals.
MA.K.MD.B.3	Classify objects into given categories; count the numbers of objects in each category and sort the categories by count.
MA.K.OA.A.1	Represent addition and subtraction up to 10 with objects, fingers, mental images, drawings, sounds (e.g., claps), acting out situations, verbal explanations, expressions, or equations.

MA.K.OA.A.2	Solve addition and subtraction word problems, and add and subtract within 10, e.g., by using objects or drawings to represent the problem.
MA.K.OA.A.5	Demonstrate fluency for addition and subtraction within 5.
MA.K-12.1	Make sense of problems and persevere in solving them.
MA.K-12.2	Reason abstractly and quantitatively.
MA.K-12.3	Construct viable arguments and critique the reasoning of others.
MA.K-12.4	Model with mathematics.
MA.K-12.5	Use appropriate tools strategically.
MA.K-12.6	Attend to precision.
MA.K-12.7	Look for and make use of structure.
MA.K-12.8	Look for and express regularity in repeated reasoning.
