Health Unit 5 Drugs and Medicine

Content Area: **Physical Education and Health**
Course(s): **Painting, Physical Education/Health**
Time Period: **April**
Length: **3 weeks**
Status: **Published**

Enduring Understandings

Medicines are drugs you take to make you feel better when you are sick.

Medicines can have side effects.

Medicines can be prescribed by a Dr. or purchased OTC.

Medicines come in various forms, must be taken according to their label, and stored safely.

Use of drugs in unsafe ways is dangerous and harmful.

Substance abuse is caused by a variety of factors.

There are many ways to obtain help for treatment of alcohol, tobacco, and other substance abuse problems.

Essential Questions

What is an example of a side effect of a medicine?

Why do some medicines have to be prescribed by a Dr. and some purchased OTC

Are certain forms of medicines more effective than others?

Why should medicines be administered as directed?

In what ways that drugs can be abused?

What are the effects of tobacco use on personal hygiene, health, and safety?

Why is tobacco smoke is harmful to nonsmokers?

What products contain alcohol?

What are some substances that should never be inhaled and explain why?

What happens when some people may have difficulty controlling their use of alcohol, tobacco, and other drugs?

What are ways that people who abuse alcohol, tobacco, and other drugs can get help?

Content
