Health Unit 3 Nutrition

Content Area: **Physical Education and Health** Course(s): **Physical Education/Health** Time Period: **January** Length: 3 weeks **Published** Status: **Enduring Understandings** Nutrients are substances that are found in food that are used in the body. The main nutrients that are used by the body are: protein, fats, carbohydrates, vitamins, minerals and water. My plate is the new version of the food pyramid. It shows you what foods to eat and the portions. **Essential Questions** How is the MY PLATE and Food Pyramid the same and different? How can I be sure that I am eating the right amount of nutrients everyday? **Skills** Differentiate between healthy and unhealthy eating patterns. Classify foods by food group, food source, nutritional content, and nutritional value. Interpret food product labels.

Discuss how healthy eating provides energy, helps to maintain healthy weight, lowers risk of disease, and keeps body systems working.
