

Unit 2 Striking Activities

Content Area: **Physical Education and Health**
Course(s): **Physical Education/Health**
Time Period: **October**
Length: **8 weeks**
Status: **Published**

Enduring Understandings

Striking an object successfully requires proper form, control, speed and accuracy.

The amount of force needed to strike an object is dependent on the game situation.

Striking a moving object requires more concentration and physical effort.

Essential Questions

How will I determine how hard or soft I need to strike an object?

Can my knowledge of math and science be applied when determining the speed and angles at which to strike?

What adjustments do I have to make when striking a stationary object vs. striking a moving object?

Skills

Proper control of the body, implement and object being struck.

Various problem solving skills and math/science concepts.

Offensive and defensive differentiation.

Standards
