Standards

SOC.6.1.12	U.S. History: America in the World: All students will acquire the knowledge and skills to think analytically about how past and present interactions of people, cultures, and the environment shape the American heritage. Such knowledge and skills enable students to make informed decisions that reflect fundamental rights and core democratic values as productive citizens in local, national, and global communities.
SOC.6.1.12.A.5.a	Assess the impact of governmental efforts to regulate industrial and financial systems in order to provide economic stability.
SOC.6.1.12.B.5.a	Explain how the Homestead Act, the availability of land and natural resources, and the development of transcontinental railroads and waterways promoted the growth of a nationwide economy and the movement of populations.
SOC.6.1.12.B.5.b	Assess the impact of rapid urbanization on the environment and on the quality of life in cities.
SOC.6.1.12.C.5.a	Analyze the economic practices of corporations and monopolies regarding the production and marketing of goods, and determine the positive or negative impact of these practices on individuals and the nation and the need for government regulations.
SOC.6.1.12.C.5.b	Compare and contrast economic development of the North, South, and West in the post-Civil War period.
