

Unit 8: Savvy shopping and meal planning

Content Area: **Language Arts Literacy**
Course(s): **Food and Fitness**
Time Period: **April**
Length: **9 blocks**
Status: **Published**

Enduring Understandings

Current and future personal wellness is dependent upon applying nutrition related concepts and skills in everyday lifestyle behaviors.

There are many short and long term health benefits and risks associated with nutritional choices.

If your diet includes predominately fast food, take out and frozen dinners it can negatively affect your health.

The art of cooking combined with informed nutritional food choices set the foundation for healthy living and wellness.

There are many health benefits from preparing your own meals because ingredients and nutrition values can be controlled.

Essential Questions

How is the relationship between a knowledgeable consumer and healthful living related?

How do you make a meal tasty, yet nutritious?

Why should I prioritize nutrition/health when making food choices?

How does information on a nutrition facts label help me determine the best food choices?

How do I overcome negative influences on food choices?

How do I evaluate media advertising information as truth or hype?

How do I effectively manipulate ingredients and directions in a recipe to enhance the healthfulness of my

meals?

How can you alter a busy lifestyle to incorporate healthy living alternatives to fast food?
