

Unit 8 Designing & Organizing Space

Content Area: **Family and Consumer Sciences**
Course(s): **Fashion Technology**
Time Period: **April**
Length: **20 blocks**
Status: **Published**

Enduring Understandings

A living space can meet a wide range of needs while reflecting the residents' personalities, interests and values.

Whether a home meets the needs of a family depends on the actions and interactions of that family.

There is a financial burden associated with renting or buying a living space.

The basic elements and principles of design can be used to create atmosphere and mood in your living quarters.

When sharing a living space with someone, practicing mutual respect is essential.

Essential Questions

Why should you consider needs and wants when deciding where to live?

Why should you consider finances when deciding to rent or to buy a home?

How do the basic elements and principles of design apply to home decoration?

Why should you consider another's needs, wants, and preferences when decorating a shared living space?

How can accessories help you decorate a room?

Why is using a floor plan a good way to decide how to organize your space?
