Unit 01: Show Productions

Content Area: **Technology**
Course(s): **Television Production 4**
Time Period: **September**
Length: **Full Year**
Status: **Published**

Transfer Skills

Producing for a show is all about engaging your audience. Throughout the year students will develop a visual style as they produce show opens, Man on the Street, sports awards, and other productions for their peers. The students will need to evaluate what their viewership hopes to see and hear in their productions. Show productions require individual and groups of students to use the production process (pre-production, production, post-production) each time they create.

Enduring Understandings

Our goal with productions is to engage our audience in the life of Wall High School.

Audience engagement comes from producing new, creative, innovative, and relevant video productions.

We are here to inform, educate, and entertain.

We must abide by copyright rules, and school rules when creating a production.

Essential Questions

How are editing and compositing software used to create an engaging production?

How will pre-production and post-production be combined?

What makes a production show ready?

What is the importance of copyright rules?

How does society influence production styles?

Content

Vocabulary:

Copyright, Audience, Societal Trends, Demographic

Skills/Learning Objectives

Apply editing and compositing tools to create multi-layered video projects.
