Content Area: **Physical Education and Health**
Course(s): **Health Education Grade 12**
Time Period: **School Year**
Length: **5 blocks**
Status: **Published**

Transfer

Healthy Mind/Healthy Body

Enduring Understandings

All individuals have basic needs, presented by Abraham Maslow as a hierarchy. Each individual has a unique personality influenced by both heredity and environment.

Developmental assets help young people grow up as healthy responsible individuals. Teens can strengthen these assets and build healthy identities.

Emotions affect all three aspects of the health triangle.

Developing the relation of physical and mental health to enhance understanding, attitudes, and behaviors that promote health, well-being, and human dignity.

Essential Questions

What are some characteristics of good mental and emotional health?

What is the relationship between mental health and disease prevention?

How can self-esteem and a positive outlook benefit your mental and emotional health?

What are some emotions that can influence your overall health?

How does our physical and mental health affect each other?

What role does substance abuse play in our mental health?

Content
