## **Transfer**

---

Big Idea: Cooperation, Work Ethic, Skills Development, Physical Fitness

## **Enduring Understandings**

---

By creating an environment in which the emphasis is on experimentation and participation in “learning by doing” situations.

Personal satisfaction is gained through a commitment to do one’s best.

Groups learn not to climb or use elements before being given the go-ahead by the facilitator. Also they learn to communicate and cooperate with climbing partners.

Students should set goals for themselves and take risks based on their personal comfort zone.

Experiencing stresses and problems in a healthy, partially controlled environment provides skills needed for preparing for life’s situations.

## **Essential Questions**

---

How do I reach the next level of performance?

What makes a safe learning environment?

What does Challenge By Choice mean?

How will these situations help in real life?
