Enduring Understandings

Mastery of reading and comprehension should stem from student's ability to appropriately identify and explain Latin phrases and grammar in order to interpret the writings in a historical and stylistic environment.

The synthesis of comprehension, translation, and contextualization should be clear in students' analysis of texts.

Text analysis should seek to reflect upon the knowledge of the Latin work through clear and coherent arguments.

Further Essential Questions:

Applicable NJSL-WL intercultural statements (interpretive mode of communication, intermediate high/mid):

- Through the target language, learners identify and investigate typical products related to everyday life in the target culture(s) and in the learners' own culture. They use their insights to infer perspectives (attitudes, values, beliefs, the way a native speaker living in the target culture interprets meaning) of the target culture society.
- Learners recognize and identify a few typical practices of the target culture in order to gain understanding of the perspectives of the target culture(s) and their societies.

Presentation mode:

Although Latin is explored in primarily the interpretive mode, the prosaic historical commentary form of the De Bello Gallico is appropriate to skill acquisition through effective presentation of Caesar's text. Information is conveyed through his prosaic phrasing. Accordingly, presentation of the text with appropriate oral dynamics aligns with NJSL-WL standard: • 7.1.IH.PRSNT.1: Present detailed information orally and in writing on information gathered from culturally authentic resources, using short paragraphs and often using major time frames.
