Enduring Understandings

Successful communication is knowing how, when and why to convey a message to different audiences.

Language learning involves acquiring strategies to fill communication gaps.

The content of the world languages classroom encompasses the entire learning experience.

Learning a different language/culture leads to greater understanding of one's own and other languages/cultures and why people think and act in different ways.

Language reflects and is influenced by the culture in which it is found.

Cultural perspectives are gained by using the language and through experience with its products and practices.

Members of one culture may make assumptions about other cultures based on their own attitudes, values and beliefs
