Enduring Understandings

The difference between anarchy and totalitarianism is that totalitarianism is absolute control by the state or governing branch of a highly centralized institution, whereas anarchy is a state of society without government or law.

The likelihood of our future becoming dystopian relies on the structures of government, laws, and policies, which are in place to keep peace, equality, and structure.

In a dystopian society, stories are often about survival; the main themes being oppression and rebellion. The environment plays important role in dystopian depiction.

No social groups are under government control.

In dystopian novels, there is usually no government control, but groups of people who take control and create havoc, just like many governments where there is no democracy, but dictatorship.
