Essential Questions

- Can the masses be trusted to know what's best for themselves?
- What are the requirements and responsibilities for participating in civic life?
- What forms can democracy take?
- What constitutes a nation?
- How can unity be fostered in a community, and what measures can be taken to address disunity?

Application of Knowledge: Students will know that...

- After the tyranny of Peisistratos in the late 6th century, Cleisthenes reorganized Attica into geographical tribes instead of divisions along class and family lines, making political involvement more equitable for most male citizens
- Athenians valued civil disobedience as an expression of democratic rights
- Athens was governed in the seventh century by ruling archons serving short terms, and a body of ex-archons called the "Areopagus"
- Democratic rule was interrupted several times in Athens by the rule of "tyrants," opportunistic rulers who seized absolute power for a short time
- Ephialtes instituted reforms in the mid-fifth century that severely reduced the powers of the Areopagus council to just cases of homicide
- One of the most important duties of Greek elected officials was organizing the public theater festivals, at which tragedians put on productions of works that reinforced Greek ideals like freedom of thought, freedom from tyranny, and divinely-enforced justice
- Overly ambitious and generally reviled politicians were capable of being exiled from all Attica by the democratic process of "ostracism"
- Solon, a reformer of the early sixth century, repealed the laws of Draco, created a new official division of Athenian classes, and abolished debt enslavement for Athenians
- The "law-giver" Draco established Athens' first civil code, which was a body of laws known for their

harsh penalties for even minor crimes and for the enforcement of debt-bondage

- The Boule, or public assembly, eventually replaced the duties of the Areopagus and the Areopagus retained only oversight of the laws
