## Unit Overview

---

In the unit, *“People Move from Place to Place,”* the students will explore westward expansion and advances in transportation and communication in the United States during the 1800’s. They will identify ways in which developments in transportation and communication impacted society. They will learn about cities, such as St. Louis, why it grew during the 1800’s, the economies established by the settlers, and how the city has changed over the years. In addition, the students will focus on slavery and immigration, including the cultural traditions each immigrant group brought to the United States. They will discover why immigrants settled in different countries such as in Brazil, how they passed on traditions and learned new ones, and how communication links people and communities around the world.
