Course Overview

The first grade math curriculum follows a similar structure that every other elementary math curriculum in that the topics are chunked according to the standards of the unit and finishes with a step up to second grade. First grade builds upon many of the skills introduced in kindergarten, creating a logical sequence of understanding. The basics of addition that were introduced in kindergarten are stepped up to learning the foundations of addition and subtraction including knowing addition and subtraction facts up to 20. Then, students take the concept even further and start to explore addition and subtraction of two digit numbers in various ways including using 100's charts and mental math. The measurement and data standards in first grade explore an initial understanding of measuring length and learning the basics of how to tell time. Finally, the geometry topics explore that difference between plane and solid shapes and also explore breaking shapes into parts.

Scope and Sequence

| Order of the Unit | Title of the Unit | Time Frame |
|---------------------|---|-------------|
| Unit 1 | Domain: Operations and Algebraic Thinking | 13-14 Weeks |
| Unit 2 | Domain: Number and Operations in Base Ten | 8-9 Weeks |
| Unit 3 | Domain: Measurement and Data | 5-6 Weeks |
| Unit 4 | Domain: Geometry | 4-5 Weeks |
| Unit 5 - Bonus Unit | Step up to Second Grade | 3 Weeks |

Date of Board Approval

This curriculum was approved by the Green Brook Board of Education on June 5, 2017.
