Course Overview

The third grade Health curriculum dives further in-depth in how students can create and maintain a healthy lifestyle for themselves. students will gain an understanding of some of the background systems that support their body and then learn strategies on how to develop and support these systems such as through fitness, exercise, and nutritious eating. They will also learning the value of maintenance of personal hygiene as well as saying "no" to bad influence such as drugs and alcohol. Furthermore, students will also learn about important ways to keep their bodies safe by wearing helmets and practicing safe habits when riding in vehicles.
