## **Activities to Differentiate Instruction**

---

### **General Modification for All Students May Include:**

- Follow the differentiation pattern of:
  - Identification of Objectives
  - Pre-Assessment of student understanding
  - Differentiated Activity
  - Whole-Group Discussion
  - Post-Assessment
  - Flexible Grouping strategies:
    - Readiness Groups – “readiness” refers to a student’s grasp of a particular concept or task
    - Student Choice Groups
    - Interest Groups
    - Learning Profile Groups
    - When working in groups, students may benefit from having assigned roles in the group, which could be differentiated based on student’s ability. Examples include, “facilitator”, “materials coordinator”, “time keeper”, and “task master”.
    - Provide student choice for assignments and activities that may appeal to their interests or particular abilities
    - Provide visual and auditory learning supports

### **Content Specific Modifications for Special Education Students May Include:**

- Modifications and accommodations as listed the student’s IEP
- One-on-one supports
- Prioritize tasks
- Modified or reduced assignments

- Simplify sentences and enuciate words.
- Allow sufficient time for children's responses.
- Use gestures or total physical response.
- Use graphic organizers.
- Present visuals and real objects.
- Ask short *what, where, and why* questions.

### **Differentiation for ELL's May Include:**

- General modifications may include:
  - Integrate activities into thematic units
  - Trigger student's prior knowledge and experience, which may be different from other students in the class
  - Scaffold complex texts
  - Collaboration with ELL teacher
  - Content specific vocabulary important for ELL students to understand include: physical, social, emotional, health, family, friend, habits, nutritious, feeling

### **Differentiation to Extend Learning for Gifted Students May Include:**

- Extend vocabulary usage beyond sad and happy to elicit more specific and complex emotions.
- When differentiating for gifted learners, consider the following three areas to differentiate: content, process, and product.
  - Content – consider leveling of resources, using additional resources, or developing learning centers. If modifying the content for students, consider various ways to modify content including acceleration of delivery, providing more depth or complexity in the topic, or creating scenarios that utilize critical or creative thinking.
  - Process – consider asking different questions or having students develop the questions, varying group patterns, or developing small groups that will enable you to target instruction
  - Product – allow for student choice in work products, independent study options related to the content areas, or appealing to their particular strengths when considering the theory of multiple intelligences

## **Integrated/Cross-Disciplinary Instruction**

---

### PHYSICAL EDUCATION

- Play a variety of musical selections and invite children to use their bodies to respond to each rhythm to show how the music makes them feel.
- Brainstorm a list of outdoor physical activities and set personal health goals to do one each day.

### SOCIAL STUDIES

- Invite children to bring in items that represent their cultural backgrounds to share with classmates. Explain how their cultural backgrounds make them special.

- Many traditions and celebrations include special food. Invite children to describe/share a special food that their family enjoys.

## MATH

- Graph family size.
- Graph favorite foods.

## MUSIC

- Play “Hot Seat,” a version of “Musical Chairs,” in which the child who sits in the “hot seat” when the music ends must tell a fire safety tip or fire drill rule.

## Resources

---

- Teacher's manual: [Health and Wellness](#)
- Student Big Book

## 21st Century Skills

CRP.K-12.CRP3.1

Career-ready individuals understand the relationship between personal health, workplace performance and personal well-being; they act on that understanding to regularly practice healthy diet, exercise and mental health activities. Career-ready individuals also take regular action to contribute to their personal financial well-being, understanding that personal financial security provides the peace of mind required to contribute more fully to their own career success.

CRP.K-12.CRP6.1

Career-ready individuals regularly think of ideas that solve problems in new and different ways, and they contribute those ideas in a useful and productive manner to improve their organization. They can consider unconventional ideas and suggestions as solutions to issues, tasks or problems, and they discern which ideas and suggestions will add greatest value. They seek new methods, practices, and ideas from a variety of sources and seek to apply those ideas to their own workplace. They take action on their ideas and understand how to bring innovation to an organization.
