

# Unit 3 - Bigger Books, Bigger Reading Muscles

Content Area: **English Language Arts**  
Course(s): **English Language Arts**  
Time Period: **Week 18**  
Length: **January/February**  
Status: **Published**

## Unit Overview

---

Most students will now be progressing from the A/B level to C/D and beyond, taking on books that may include dialogue, action, prepositional phrases, inflected endings, etc. Students will now be encouraged to use their "super powers" to read those difficult books. In this unit you will grow their bank of reading strategies to help them face the challenge of new books.

The unit will capitalize on student reading knowledge including knowledge of letter-sound correspondence, comprehension, and fluency. Assessments will be conducted in this unit and throughout the year using Teacher's College Running Records. In addition, Foundations, Level K, Wilson Language Basics, (2012, Wilson Language Training Corporation) will systematically and comprehensively instruct students in phonemic awareness and word study, which includes both phonetic and high frequency sight words. This instruction will contribute greatly to fluency, vocabulary development, and the applications of strategies for understanding text.

## **Essential Questions**

---

1. How do readers tackle more difficult books?
2. How do readers make predictions?
3. What are the pictures in books telling readers?

## **Application of Knowledge: Students will know that...**

---

- Pictures reveal details in the story that even the text doesn't reveal
- Readers make predictions by reading the text and looking at the pictures and thinking about them
- Readers tackle books using many different strategies

## **Application of Skills: Students will be able to...**

---

- Decode words with assistance
- Make predictions about the books they are reading

## **Teaching Points and Suggested Activities**

---

The following teaching points and activities are adapted from *Units of Study for Teaching Reading Grade K* (Calkins et al., 2015) and serve as a loose framework for teachers, who will add and/or emphasize based on their students' needs.

### **Teaching Points**

#### **Bend I: Tackling More Challenging Books**

- Tackling more challenging books - teach children that they'll need to draw on all they know (and more) to tackle the reading challenges ahead.

- Readers use patterns to help them read almost every page - teach children that figuring out the pattern can help them read their books
- Readers figure out the changing words in the pattern - teach children that they can search using the picture and the first letter to solve unknown words.
- Readers use all of their super powers to read pattern breaks in books - teach children to expect pattern breaks in their books and to use all of their strategies to read those parts.
- Readers check their reading - teach children that even after they think they have solved the words, their reading work is not finished. You will show them that readers monitor for meaning and structure, and if their reading doesn't make sense or sound right, they must fix it up.
- Readers use the pattern and the ending to understand their books - teach children that they don't just use the pattern to help them read the words; they also use the pattern and ending to better understand their books

## **Bend II: Zooming In on Letters and Sounds**

- Readers use their letter-sound knowledge to help Them Read the Words on the Page - teach children to realize that one of their biggest sources of power is their letter-sound knowledge
- Readers use their letter-sound knowledge to help them read unknown words - teach children that they can use their letter-sound knowledge to solve unknown words
- Readers can notice consonant clusters to help solve unknown words - teach children that as books get more challenging they will have to move from looking at just the initial consonant in a word to looking at the first two or three consonants.
- Readers look to the ends of words as they read - teach children to solve words by first looking at the beginning parts of words and then moving their eyes toward the ends of the words
- Readers preview a page and locate known words before reading - teach children that they can locate known words and read these words in a snap
- Readers check their reading - teach children that even after they think they have solved words, their reading work is not finished. You will show the class that readers monitor for meaning, structure, and visual information. If their reading doesn't make sense, sound right, or look right, they must fix it up.

## **Bend III: Graduation: Becoming Stronger Readers**

- As books become harder, readers need new kinds of picture power - teach children that they can graduate to new, powers. These books will put new demands on them, including the need to use picture power differently.
- Readers can lean on their snap word power when books become less patterned - teach children that some of their books might be less patterned. This means they need to rely even more on searching for meaning and on their knowledge of high-frequency words.
- Readers can read snap words with inflected endings - teach children that they can read familiar high-frequency words no matter what - even when they have inflected endings.
- Readers use all they know about stories to make predictions - teach children that knowing how stories go can help them read and think about what might happen next.
- Readers need extra-strength reread power to bring their books to life - teach readers to think about what is happening in the story to help improve their fluency and make their books come to life.
- Readers need extra-strength book talk power - teach children new ways they can think and talk about their books. Since their books and powers have grown and changes, so too does the way they should talk about books.

## **Suggested Activities**

- Create and refer to anchor charts.
- Provide and present mentor texts as models.
- Teach the *Work of Readers* Charts.
- Model (Talk Aloud) the strategies good readers use.
- Study book pictures
- Practice creating mental movies as you read.
- Investigate figurative language and descriptive vocabulary and how authors use them.
- Turn and Talk the dialogue in a story to bring the characters' feelings alive.
- Set mini-reading goals for engagement, print work, fluency, comprehension, and/or conversation.
- Provide checklists and reading progressions to assess and develop on-going reading goals.
- Practice alternating the speed a text is read to reflect tone and mood.
- Plan to celebrate the conclusion of classroom reading projects.
- Use technology in the reading classroom; for example, use storytelling videos

## **Assessments**

---

Assessment in this unit takes three forms: diagnostic, formative, and summative. There are downloadable, digital versions of the assessment tools available through the online resources at; [www.readingandwritingproject.org/resources](http://www.readingandwritingproject.org/resources). Teachers may also develop their own rubrics and assessments in order to include more specific elements of knowledge and skills listed in this unit summary.

Student self-assessment and peer assessment should take place whenever possible--again, in all three forms: diagnostic, formative, and summative. Removing the traditional emphasis on teacher assessment enables students to take more initiative and become self-directed.

On-going teacher assessment will take place in the context of a conference. Conferences, both small group and one-to-one conferring, are used to reinforce expectations, provide advice and/or assistance, and ultimately, to support growth.

## **Activities to Differentiate Instruction**

The design of reading workshop allows for individualized instruction and independent growth for every child. At the heart of differentiation in Reader's Workshop is data and the analysis of data. Through the usage of monitoring student progress during independent reading, analysis of formal and informal running records, and other assessments such as high-frequency word lists and spelling inventories, teachers should be able to delineate which students are in need of additional supports, in what areas those supports should be targeted at, and which students are ready to be pushed further in their reading work.

Some methods to use to support struggling readers as well as advanced readers:

- Provide leveled books appropriate for all reading levels
- Provide support as needed through conferencing
- Provide support as needed through strategy groups
- Provide support as needed through guided reading groups
- Provide modified and/or alternate grade level checklists and rubrics to scaffold or stretch learning
- Scaffold or stretch learning through the use of various strategies
- Provide appropriate reading partners
- Utilize charts to provide a visual reminder for students throughout the mini-lesson.
  - Add drawings and visuals to charts
  - Provide individualized copies of teaching charts
  - Depending on the concept, the chart may be most effective to visually break the concept into parts and touch each part during a demonstration
- For students needing more support at the end of the mini-lesson, keep them at the rug for an extra minute after dispersing the rest of the class and clarify the main topic of the mini-lesson or work one-on-one with them to start their reading
- Set reading goals for students and follow-up with the reading goals after an appropriate amount of time.
- Create group and one-on-one conferencing calendars to ensure that students are being met with on a regular basis and working toward individualized goals
- As the unit progresses, the teacher, in coordination with the students, will develop a word wall that will highlight vocabulary specific to the topic chosen
- Assign roles to partners (Partner 1/Partner 2) to help scaffold which student should speak first and avoid one partner dominating the conversation and the other partner becoming a passive listener
  - For ELL students, creating a triad instead of partnership may be beneficial
- Provide students access to RAZ Kids which will provide students more reading options for leveled texts, access to technology, and

the ability to have books read to them while they follow along or for students to record their reading

Supports for ELL students:

- Provide consistent teaching structures
- Use consistent teaching language
- Offer plentiful opportunities for reading practice
- Provide access to a broad variety of texts
- Use assessment to provide extra support
- Support students in the preproduction and early production stages of learning English
- Use visual examples in your teaching
- Modify our mini-lessons to be as concise as possible
- Provide extra ?active engagement? time in mini-lessons for extra practice
- Provide readers with topic-based text sets
- Provide opportunities for listening and learning the social language of the reading workshop
- Provide opportunities to read in both their home language and in English
- Plan instruction with the ELL teacher
- Extend the language ELLs are producing through questioning
- Provide explicit instruction in tenses, pronoun references, and connectives
- Support students in building vocabulary using their own reading as the context
- As the unit progresses, the teacher, in coordination with the students, will develop a word wall that will highlight vocabulary specific to the topic chosen

In order to support this differentiation work, teachers may want to consult the following materials:

- Units of Study books at lower or higher levels for teaching strategies that are appropriate to the support needed.
- The Reading Strategies Book by Jennifer Serravallo
- If. . . Then. . . Curriculum book for alternate units or teaching points to support the individual reading levels.
- A Guide to the Reading Workshop (Primary Grades) chapter 14 for more in-depth information on differentiation

## 21st Century Skills

---

CRP.K-12.CRP2.1

Career-ready individuals readily access and use the knowledge and skills acquired through experience and education to be more productive. They make connections between abstract concepts with real-world applications, and they make correct insights about when it is appropriate to apply the use of an academic skill in a workplace situation.

CRP.K-12.CRP4.1

Career-ready individuals communicate thoughts, ideas, and action plans with clarity, whether using written, verbal, and/or visual methods. They communicate in the workplace with clarity and purpose to make maximum use of their own and others' time. They are excellent writers; they master conventions, word choice, and organization, and use effective tone and presentation skills to articulate ideas. They are skilled at interacting with others; they are active listeners and speak clearly and with purpose. Career-ready individuals think about the audience for their communication and prepare accordingly to ensure the desired outcome.
