

Unit 5 - Becoming Avid Readers

Content Area: **English Language Arts**
Course(s): **English Language Arts**
Time Period: **Week 32**
Length: **March/April**
Status: **Published**

Unit Overview

This unit builds on the past few units, but especially reinforces the first unit - no longer are students just readers - they are avid readers! This unit sets up the children to become less reliant on the teacher, encouraging them to apply their strategies across multiple contexts. This unit focuses less on new skills, but more about making sure that what the children have learned has been internalized and automatic. The teacher will need to decide where their students need additional practice to make sure the learning is secure and transferable. This unit will continue to immerse the children in books, poetry and songs, but children will now be encouraged to take more responsibility in making decisions about what and how to read. Most children will still need support, but the teacher will constantly encourage avid reading.

The unit will capitalize on student reading knowledge including knowledge of letter-sound correspondence, comprehension, and fluency. Assessments will be conducted in this unit and throughout the year using Teacher's College Running Records. In addition, Foundations, Level K, Wilson Language Basics, (2012, Wilson Language Training Corporation) will systematically and comprehensively instruct students in phonemic awareness and word study, which includes both phonetic and high frequency sight words. This instruction will contribute greatly to fluency, vocabulary development, and the applications of strategies for understanding text.

Essential Questions

1. What is an avid reader? How does a reader become one?
2. How do I choose books to read?
3. How is non-fiction reading different from fiction reading?

Application of Knowledge: Students will know that...

- An avid reader is someone who loves reading so much they can hardly bear to stop reading
- Non-fiction reading is both for information and enjoyment, while fiction reading is more for enjoyment
- Readers choose books based on interest and difficulty

Application of Skills: Students will be able to...

- Choose and read books independently
- Use phrasing and fluency while reading
- Use their voices while reading to convey emotion

Teaching Points and Suggested Activities

The following teaching points and activities are adapted from Units of Study for Teaching Reading Grade K (Calkins et al., 2015) and serve as a loose framework for teachers, who will add and/or emphasize based on their students' needs.

Teaching Points

Bend I: Becoming an Avid Reader

- What is an avid reader? - help students understand what it means to be an avid reader
- Reacting to books - teach children that avid readers react to books, and they often find ways to share those reactions with others.
- Capturing thinking about books - teach children that readers record their thinking about books so they can remember it later when talking with their partners
- Avid readers reach for just-right words to describe feelings - show students how more precise words (other than happy and sad) can pinpoint feelings more clearly
- Avid readers reflect and set goals for themselves - avid readers also always use extra-strength superpowers to read more and more. Students can develop their own superpowers charts, customized to their individual strengths and needs
- Avid readers make playdates - invite children to invent fun things to do with their books. They will begin to have reading playdates.
- Playing pretend - teach children that reading is a lot like pretending; avid readers act out a story in their minds each time they read.
- Close reading and book-based pretending - teach children to pay close attention to what the story says, so they can act it out the way the author wants it to be acted.

Bend II: Learning from All-About Books

- Thinking about and reacting to nonfiction texts - invite children to conduct an inquiry to determine the kinds of thinking and reacting that nonfiction movie viewers do and consider whether this is also true for nonfiction readers.
- Talking like an expert - teach children that nonfiction readers use fancy words that go with the topic they are studying to explain what they have learned to other people.
- Nonfiction reading playdates - invite students to collaborate to decide how non-fiction playdates might go
- Falling in love with topics - introduce topic-based reading clubs by setting children up to discover a topic of interest and then search for other books that might focus on that topic.
- Avid nonfiction readers notice similarities and differences in books - help readers learn to compare information by noticing what is similar and what is different in two or more books on the same topic
- Avid nonfiction readers pretend - teach children that nonfiction readers pretend and act out parts of the text, just like they did with fiction stories.

Bend III: Falling in Love with Poetry

- Reading for meaning and rhythm and fun - teach children that reading poems is a lot like reading songs. To get the rhythm and feeling of a poem just right, it helps to read it again and again
- Readers bring out a poem's meaning and feeling - teach students that to bring out a poem's meaning, readers can think about the feeling of the poem, and then use that to figure out how to read it well
- Becoming a copycat poet - show children how to play around with the rhyme and the rhythm of favorite poems and create new poems with similar sound patterns, which can help them better

understand how poems work

Suggested Activities

- Create and refer to anchor charts.
- Provide and present mentor texts as models.
- Teach the *Work of Readers* Charts.
- Model (Talk Aloud) the strategies good readers use.
- Study book pictures
- Practice creating mental movies as you read.
- Investigate figurative language and descriptive vocabulary and how authors use them.
- Turn and Talk the dialogue in a story to bring the characters' feelings alive.
- Set mini-reading goals for engagement, print work, fluency, comprehension, and/or conversation.
- Provide checklists and reading progressions to assess and develop on-going reading goals.
- Practice alternating the speed a text is read to reflect tone and mood.
- Plan to celebrate the conclusion of classroom reading projects.
- Use technology in the reading classroom; for example, use storytelling videos

Assessments

Assessment in this unit takes three forms: diagnostic, formative, and summative. There are downloadable, digital versions of the assessment tools available through the online resources at; www.readingandwritingproject.org/resources. Teachers may also develop their own rubrics and assessments in order to include more specific elements of knowledge and skills listed in this unit summary.

Student self-assessment and peer assessment should take place whenever possible--again, in all three forms: diagnostic, formative, and summative. Removing the traditional emphasis on teacher assessment enables students to take more initiative and become self-directed.

On-going teacher assessment will take place in the context of a conference. Conferences, both small group and one-to-one conferring, are used to reinforce expectations, provide advice and/or assistance, and ultimately, to support growth.

Activities to Differentiate Instruction

The design of reading workshop allows for individualized instruction and independent growth for every child. At the heart of differentiation in Reader's Workshop is data and the analysis of data. Through the usage of monitoring student progress during independent reading, analysis of formal and informal running records, and other assessments such as high-frequency word lists and spelling inventories, teachers should be able to delineate which students are in need of additional supports, in what areas those supports should be targeted at, and which students are ready to be pushed further in their reading work.

Some methods to use to support struggling readers as well as advanced readers:

- Provide leveled books appropriate for all reading levels
- Provide support as needed through conferencing
- Provide support as needed through strategy groups
- Provide support as needed through guided reading groups
- Provide modified and/or alternate grade level checklists and rubrics to scaffold or stretch learning
- Scaffold or stretch learning through the use of various strategies
- Provide appropriate reading partners
- Utilize charts to provide a visual reminder for students throughout the mini-lesson.
 - Add drawings and visuals to charts
 - Provide individualized copies of teaching charts
 - Depending on the concept, the chart may be most effective to visually break the concept into parts and touch each part

- during a demonstration
- For students needing more support at the end of the mini-lesson, keep them at the rug for an extra minute after dispersing the rest of the class and clarify the main topic of the mini-lesson or work one-on-one with them to start their reading
- Set reading goals for students and follow-up with the reading goals after an appropriate amount of time.
- Create group and one-on-one conferencing calendars to ensure that students are being met with on a regular basis and working toward individualized goals
- As the unit progresses, the teacher, in coordination with the students, will develop a word wall that will highlight vocabulary specific to the topic chosen
- Assign roles to partners (Partner 1/Partner 2) to help scaffold which student should speak first and avoid one partner dominating the conversation and the other partner becoming a passive listener
 - For ELL students, creating a triad instead of partnership may be beneficial
- Provide students access to RAZ Kids which will provide students more reading options for leveled texts, access to technology, and the ability to have books read to them while they follow along or for students to record their reading

Supports for ELL students:

- Provide consistent teaching structures
- Use consistent teaching language
- Offer plentiful opportunities for reading practice
- Provide access to a broad variety of texts
- Use assessment to provide extra support
- Support students in the preproduction and early production stages of learning English
- Use visual examples in your teaching
- Modify our mini-lessons to be as concise as possible
- Provide extra ?active engagement? time in mini-lessons for extra practice
- Provide readers with topic-based text sets
- Provide opportunities for listening and learning the social language of the reading workshop
- Provide opportunities to read in both their home language and in English
- Plan instruction with the ELL teacher
- Extend the language ELLs are producing through questioning
- Provide explicit instruction in tenses, pronoun references, and connectives
- Support students in building vocabulary using their own reading as the context
- As the unit progresses, the teacher, in coordination with the students, will develop a word wall that will highlight vocabulary specific to the topic chosen

In order to support this differentiation work, teachers may want to consult the following materials:

- Units of Study books at lower or higher levels for teaching strategies that are appropriate to the support needed.
- The Reading Strategies Book by Jennifer Serravallo
- If. . . Then. . . Curriculum book for alternate units or teaching points to support the individual reading levels.
- A Guide to the Reading Workshop (Primary Grades) chapter 14 for more in-depth information on differentiation

21st Century Skills

CRP.K-12.CRP2.1

Career-ready individuals readily access and use the knowledge and skills acquired through experience and education to be more productive. They make connections between abstract concepts with real-world applications, and they make correct insights about when it is appropriate to apply the use of an academic skill in a workplace situation.

CRP.K-12.CRP4.1

Career-ready individuals communicate thoughts, ideas, and action plans with clarity, whether using written, verbal, and/or visual methods. They communicate in the workplace with clarity and purpose to make maximum use of their own and others' time. They are excellent writers; they master conventions, word choice, and organization, and use effective tone and presentation skills to articulate ideas. They are skilled at interacting with others; they are active listeners and speak clearly and with purpose. Career-ready individuals think about the audience for their communication and prepare accordingly to ensure the desired outcome.
