

Unit 2 - Super Powers

Content Area: **English Language Arts**
Course(s): **English Language Arts**
Time Period: **Week 10**
Length: **November/December**
Status: **Published**

Unit Overview

This unit reinforces the reading practices that should now be 'habits' within the kindergarten class: sitting quietly with books, choosing lots of books at a time, and discussing books with partners. Students should also be 'warming up' before reading by looking at the front and back of the books they select and doing picture walks. As readers move forward, they'll want to start paying closer attention to the words they are reading (often by using their finger pointer to point to words as they read), as well as looking at the pictures for help making meaning. Using cues as readers will be worked on as strategies during this unit.

The unit will capitalize on student reading knowledge including knowledge of letter-sound correspondence, comprehension, and fluency. Assessments will be conducted in this unit and throughout the year using Teacher's College Running Records. In addition, Foundations, Level K, Wilson Language Basics, (2012, Wilson Language Training Corporation) will systematically and comprehensively instruct students in phonemic awareness and word study, which includes both phonetic and high frequency sight words. This instruction will contribute greatly to fluency, vocabulary development, and the applications of strategies for understanding text.

Essential Questions

1. Why and how should a reader think about the story as they read?
2. What are some strategies that readers use to help figure out unknown words?
3. How should readers discuss texts with their partners?

Application of Knowledge: Students will know that...

- Discussing books adds to the enjoyment, fluency and comprehension of what is read.
- Readers have different ways to get their minds prepared before reading.
- Readers think about the story or text as they read.
- There are different strategies that readers use to help them figure out unknown words.

Application of Skills: Students will be able to...

- Read a favorite story to a peer or teacher
- Retell a story they have read capturing the major details of the story

Teaching Points and Suggested Activities

The following teaching points and activities are adapted from *Units of Study for Teaching Reading Grade K* (Calkins et al., 2015) and serve as a loose framework for teachers, who will add and/or emphasize based on their students' needs.

Teaching Points

Bend I: Using Super Power to Look and Point, and Then Read Everything

- Readers have super powers to look, point, and read everything they can't - teach children that they can use "super powers" to help them read, starting with the power of pointing under each word to read what it actually says.
- Super readers use pointer power to check their reading, making sure what they say matches what they

see - teach children that the number of words they read should match the number of times they point.

- Readers don't let longer words slow them down: every word gets one tap - teach children that both short and long words get one tap.
- Readers use snap words to anchor their pointer power - teach children that snap words - words they know in a snap - can help them fix their pointer power.
- Partner power gives readers even stronger pointer power - teach partners to double their pointing power by having one partner read while the other partner points, both checking that one word gets one tap.

Bend II: Taking on Even the Hardest Words

- Super readers put powers together - teach children to use pictures to help them predict and read unfamiliar words
- Super readers learn words and practice reading them in a "snap"! - teach children that readers look, read, spell, write, look, and read to make any word a snap word
- Super readers make the first sound in the words to help them read the word - teach readers to look at the first letter and say the first sound to help them predict and read an unfamiliar word.
- Readers show off their powers - teach children that readers try one thing and then another when they are stuck

Bend III: Bringing Books to Life

- Readers use their voices to bring books to life - teach children that readers read with smooth voices to bring books to life.
- Readers use the pattern to sing out their books - teach children that readers sing out pattern words to help them read smoothly
- Readers use punctuation to figure out how to read - teach students to use end punctuation to determine when to stop and what voice to use when reading
- Readers change their voices to show they understand the book - teach children that readers use their voices in different ways as they read to show they understand the book. They match their tone to the feelings in the book
- Super readers talk about books, too - teach children that readers not only read books; they talk about them, too, to bring them to life
- Readers retell books after they read them - teach children that readers retell books to help them remember all the parts.

Suggested Activities

- Create and refer to anchor charts.
- Provide and present mentor texts as models.
- Teach the *Work of Readers* Charts.
- Model (Talk Aloud) the strategies good readers use.
- Study book pictures
- Practice creating mental movies as you read.
- Investigate figurative language and descriptive vocabulary and how authors use them.
- Turn and Talk the dialogue in a story to bring the characters' feelings alive.
- Set mini-reading goals for engagement, print work, fluency, comprehension, and/or conversation.
- Provide checklists and reading progressions to assess and develop on-going reading goals.
- Practice alternating the speed a text is read to reflect tone and mood.

- Plan to celebrate the conclusion of classroom reading projects.
- Use technology in the reading classroom; for example, use storytelling videos

Assessments

Assessment in this unit takes three forms: diagnostic, formative, and summative. There are downloadable, digital versions of the assessment tools available through the online resources at; www.readingandwritingproject.org/resources. Teachers may also develop their own rubrics and assessments in order to include more specific elements of knowledge and skills listed in this unit summary.

Student self-assessment and peer assessment should take place whenever possible--again, in all three forms: diagnostic, formative, and summative. Removing the traditional emphasis on teacher assessment enables students to take more initiative and become self-directed.

On-going teacher assessment will take place in the context of a conference. Conferences, both small group and one-to-one conferring, are used to reinforce expectations, provide advice and/or assistance, and ultimately, to support growth.

Activities to Differentiate Instruction

The design of reading workshop allows for individualized instruction and independent growth for every child. At the heart of differentiation in Reader's Workshop is data and the analysis of data. Through the usage of monitoring student progress during independent reading, analysis of formal and informal running records, and other assessments such as high-frequency word lists and spelling inventories, teachers should be able to delineate which students are in need of additional supports, in what areas those supports should be targeted at, and which students are ready to be pushed further in their reading work.

Some methods to use to support struggling readers as well as advanced readers:

- Provide leveled books appropriate for all reading levels
- Provide support as needed through conferencing
- Provide support as needed through strategy groups
- Provide support as needed through guided reading groups
- Provide modified and/or alternate grade level checklists and rubrics to scaffold or stretch learning
- Scaffold or stretch learning through the use of various strategies
- Provide appropriate reading partners
- Utilize charts to provide a visual reminder for students throughout the mini-lesson.
 - Add drawings and visuals to charts
 - Provide individualized copies of teaching charts
 - Depending on the concept, the chart may be most effective to visually break the concept into parts and touch each part during a demonstration
- For students needing more support at the end of the mini-lesson, keep them at the rug for an extra minute after dispersing the rest of the class and clarify the main topic of the mini-lesson or work one-on-one with them to start their reading
- Set reading goals for students and follow-up with the reading goals after an appropriate amount of time.
- Create group and one-on-one conferencing calendars to ensure that students are being met with on a regular basis and working toward individualized goals
- As the unit progresses, the teacher, in coordination with the students, will develop a word wall that will highlight vocabulary specific to the topic chosen
- Assign roles to partners (Partner 1/Partner 2) to help scaffold which student should speak first and avoid one partner dominating the conversation and the other partner becoming a passive listener
 - For ELL students, creating a triad instead of partnership may be beneficial
- Provide students access to RAZ Kids which will provide students more reading options for leveled texts, access to technology, and the ability to have books read to them while they follow along or for students to record their reading

Supports for ELL students:

- Provide consistent teaching structures
- Use consistent teaching language
- Offer plentiful opportunities for reading practice
- Provide access to a broad variety of texts
- Use assessment to provide extra support
- Support students in the preproduction and early production stages of learning English
- Use visual examples in your teaching
- Modify our mini-lessons to be as concise as possible
- Provide extra ?active engagement? time in mini-lessons for extra practice
- Provide readers with topic-based text sets
- Provide opportunities for listening and learning the social language of the reading workshop
- Provide opportunities to read in both their home language and in English
- Plan instruction with the ELL teacher
- Extend the language ELLs are producing through questioning
- Provide explicit instruction in tenses, pronoun references, and connectives

- Support students in building vocabulary using their own reading as the context
- As the unit progresses, the teacher, in coordination with the students, will develop a word wall that will highlight vocabulary specific to the topic chosen

In order to support this differentiation work, teachers may want to consult the following materials:

- Units of Study books at lower or higher levels for teaching strategies that are appropriate to the support needed.
- The Reading Strategies Book by Jennifer Serravallo
- If. . . Then. . . Curriculum book for alternate units or teaching points to support the individual reading levels.
- A Guide to the Reading Workshop (Primary Grades) chapter 14 for more in-depth information on differentiation

Integrated/Cross-Disciplinary Instruction

Continue to be excited to read across the curriculum, labeling science experiments, social studies object, even encouraging the specials to label their rooms.

21st Century Skills

CRP.K-12.CRP2.1

Career-ready individuals readily access and use the knowledge and skills acquired through experience and education to be more productive. They make connections between abstract concepts with real-world applications, and they make correct insights about when it is appropriate to apply the use of an academic skill in a workplace situation.

CRP.K-12.CRP4.1

Career-ready individuals communicate thoughts, ideas, and action plans with clarity, whether using written, verbal, and/or visual methods. They communicate in the workplace with clarity and purpose to make maximum use of their own and others' time. They are excellent writers; they master conventions, word choice, and organization, and use effective tone and presentation skills to articulate ideas. They are skilled at interacting with others; they are active listeners and speak clearly and with purpose. Career-ready individuals think about the audience for their communication and prepare accordingly to ensure the desired outcome.
