

Unit 1--Narrative Writing

Content Area: **English Language Arts**
Course(s): **English Language Arts**
Time Period: **Marking Period 1**
Length: **6 to 8 weeks**
Status: **Published**

Unit Overview

In conjunction with Reading lessons on fictional and nonfictional narratives, students will compose their own narratives as they have done in previous grades. Based on individual students' readiness, the teacher will work with students to move beyond basic personal and fictional narratives into the realm of fantasy. All of the essential techniques, conventions, and strategies apply to students' stories: character development, dialog, setting, conflict, and resolution, to name a few. Additionally, students--particularly those in the GATE class--will draw inspiration from exemplars that use advanced, abstract literary devices such as irony, foreshadowing, foils, symbolism, allusion, and metaphor. Students will draft both handwritten pieces as well as pieces using appropriate technology.

Essential Questions

1. Evaluating my previous experiences in writing narratives, what goals should I set for myself in terms of genre, technique, and creativity?
2. How do I develop a theme in my narrative that applies to the world at large and the experiences of my audience?
3. What elements contribute to a compelling story, and how do they do so?
4. What should inspire me and influence me as I write?
5. How and why should I make use of my skills, resources, peers, and teacher as my work takes shape?

Application of Knowledge: Students will know that...

- A story's resolution (even if it is ironic or a surprise) must reflect in a clear and significant manner the theme of the story and its narrative arc.
- Basic skills such as spelling, grammar, and punctuation apply to all writing.
- Clear and coherent writing illustrates development, organization, and style that are appropriate to task, purpose, and audience.
- Commas, dashes, and ellipses can enhance and manipulate the rhythm of dialogue.
- Conferences are two-way discussions whose frank interchange of ideas facilitates good writing.
- Conflict drives the plot of a narrative.
- Effective description, details, logical and natural sequencing, and character development require significant time and thought in order to take shape.
- Narratives have a beginning, a middle, and an end.

- Narratives take on added dimensions of meaning with appropriate use of vocabulary and description.
- Writing is a process that unfolds over time, beginning with ideas, taking refinement over several drafts, and improving with inspiration from outside texts as well as with consultations with peers and teachers.

Application of Skills: Students will be able to...

- Apply constructive criticism received from their peers and from the teacher with regard to basic skills, pacing, dialogue, sequencing, character development, theme, and literary devices.
- Apply the basic skills of spelling, capitalization, and punctuation properly to their writing.
- Assist and receive assistance from peers in developing ideas, writing, revising, and editing.
- Complete at least the final phase of their work using digital and cloud capabilities and produce final products in digital form.
- Compose a resolution consistent with the theme and narrative thrust of the story.
- Compose narratives with a clear and logical narrative arc from beginning to end.
- Develop a clear narrative voice as well as distinct, developed, and evolving characters.
- Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
- Use a variety of transition words, phrases, and clauses to convey sequence, signal shifts from one time frame or setting to another, and show the relationships among experiences and events.
- Use commas, ellipses, and dashes to indicate pauses or breaks in dialogue.
- Use narrative techniques, such as dialogue, pacing, description, and reflection, to develop experiences, events, and/or characters.
- Use precise words and phrases, relevant descriptive details, and sensory language to capture the action and convey experiences and events.
- Use vocabulary appropriate to the content, tone, and theme of their narratives.
- Write every day toward the completion of their narratives.

Assessments

Assessment in this unit takes three forms: diagnostic, formative, and summative. Assessment rubrics are available in Lucy Calkins's Reading and Writing Project resource kits, but teachers may also develop their

own rubrics in order to include more specific elements of knowledge and skills listed in this unit summary.

Additionally, student self-assessment and peer assessment should take place whenever possible--again, in all three forms: diagnostic, formative, and summative. Removing the traditional emphasis on teacher assessment enables students to take more initiative and become self-directed.

Also, whenever possible, teacher assessment should take place in the context of a conference, or at least be followed up by a conference. This reinforces expectations, advice, assistance, and ultimately, growth.

Diagnostic Assessments

Review of student's portfolio from the previous school year, particularly narrative projects

On-demand narrative (E.g. "Please write, the best personal narrative, the best true story, that you can write. Make this be the story of one time in your life. You might focus on just a scene or two. You'll have only forty-five minutes to write this true story, so you'll need to plan, draft, revise, and edit in one sitting. Write in a way that allows you to show off all you know about narrative writing. In your writing, make sure you: Write a beginning for your story, use transition words to tell what happened in order, elaborate to help readers picture your story, show what your story is really about, and write an ending for your story." - Taken from *Writing Pathways: Performance Assessments and Learning Progressions*, 6-8)

Formative Assessments (Informal)

Daily observation of students' participation and products during the active participation segment of each mini-lesson.

Students' questions, comments, suggestions to teacher

Comments, corrections, and records from peer conferences between students

Formative Assessments (Formal)

Teacher-student conferences

Summative Assessment

Summative writing will take the form of both handwritten pieces and pieces generated using appropriate technology.

Published narratives

On-demand narrative (Same prompt as the diagnostic on-demand)

Activities to Differentiate Instruction

The Writing Workshop framework enables students to generate story ideas based on their own interests and experiences. The inherently self-directed nature of developing initial concepts requires continual reinforcement, however, at all phases of instruction during the unit.

This particular unit on narrative writing also enables students--based on interest and ability--to choose in consultation with their teachers from a range of narrative genres. Struggling students may choose more basic narrative structures, applying them to real-life personal narratives. Teachers will encourage other students to take on the challenge of writing fantasy stories. Highly imaginative students, however, will require advice and guidance as the depth of their work transcends genre. They will explore literary tropes and elements on a highly abstract level and with highly nuanced applications.

The active participation component of mini-lessons enables a teacher to move around and observe students at work on concepts and strategies that were presented in a whole-class format. The teacher can intervene at his or her discretion.

Likewise, a sharing component of many lessons will allow for a sampling of work from multiple students. A greater flow of ideas and products brings about a more thorough appeal to the individual dispositions and learning styles of students listening. Also, this unit will culminate in a publishing/celebrating day on which students put their individual skills and products on display.

Supplementing this, multiple exemplar texts in varying styles will broaden the appeal and accessibility of the knowledge and skills students are developing.

Due to those varying dispositions and learning styles, teachers promote various strategies during all phases of the writing process. Students will have opportunities to work alone, in pairs, and in groups. They will choose either to compose in a traditional pen-on-paper mode or to compose, revise, edit, and publish digitally.

Conferences also provide a critical opportunity for students to receive individual attention and instruction. Small-group conferences with a teacher will allow for a diverse mix of ideas and advice that students can apply to their work whether it was specifically given to them or not, and the discussion is often easier to follow and takes place in closer proximity to individual students than whole-class instruction. Of course, at several stages in the writing process, the teacher will hold conferences with individual students for formative and summative purposes.

In compliance with 504 plans and IEP's, teachers will review applicable documents, consult appropriate personnel connected with special-needs students' cases, work closely with inclusion teachers and classroom aides, and communicate with parents in an effort to see to the specific needs of all students.

In some cases, most often in GATE classes, teachers may elect to have students compile their narratives into a true publication. This will require many individual students to work in specialized capacities such as copy editors, section editors, editors-in-chief, and layout and design specialists. Over several instructional units, additional students will serve as archivists.

Integrated/Cross-Disciplinary Instruction

Consistent with the concept of differentiated instruction, students should learn the knowledge and skills of this unit in conjunction with concepts from various content areas. The diverse genres of narrative writing make this highly feasible, and mini-lessons can apply to concepts from multiple subjects. Here are some of the obvious correlations:

- historical fiction: social studies
- science fiction: science and mathematics
- fantasy: mythology and folklore
- fan fiction: literature

While some teachers will provide instruction that includes specific concepts from various content areas, all should direct students to specific text and online resources pertinent to various content areas. Also, teachers will consult grade-level content area teachers on concepts covered in their classes, allowing subjects, lessons, and experiences to reinforce each other.
