Course Overview

The third grade talented art curriculum will increase students' understanding of the seven elements of art. Students will be introduced to advanced mediums and techniques while creating historical ties to artists throughout history. Students will be challenged by new mediums such as acrylic painting and clay and will begin to take ownership of their art making through artist statements and critiques. Students will learn how to create art with intention. Units will last two marking periods. Lessons within the marking periods will build upon each other to increase students' knowledge of the content. Unit 1 will consist of lessons that are more teacher driven with clear guidelines. In Unit 2, students will be able to use their knowledge and create self-guided lessons with more artistic flexibility.
