Content Area: **English Language Arts**  
Course(s): **English Language Arts, Generic District Course**  
Time Period: **Generic Time Period**  
Length: **Weeks**  
Status: **Published**

## Unit Overview

---

**Concurrent with Cycle 2 of the Writing Workshop, this project will focus on developing research and writing skills for an informational report. Teachers may choose (or offer the students the choice) to apply the research model to either an argumentative writing topic or an informative writing topic from Cycle 2.**

The writer will provide information or inform the reader of a specific topic. Students will implement steps of writing a research report which include: choosing a research question, consulting sources, discerning validity and pertinence of sources and information, developing a thesis, developing an outline, organizing information (via notecards or digital resources), drafting, revising, editing and proofreading, and publishing.

This relatively modest project, requiring a minimum of four sources and a final product of at least three pages, prepares students for a similar project in grade 7 and a larger-scale project in grade 8.

## **Essential Questions**

---

How can research inform a writer, a reader, and a written product?

How can one determine whether research sources are reliable and useful?

What elements can a writer include to make a piece more authoritative and better develop his/her writing voice?

How does the writing process contribute to effective pieces of writing and develop a well-written product?

How and why must one take special care to indicate which information and ideas come not from oneself but from outside sources?

## **Application of Knowledge and Skills...**

### **Students will know that...**

---

The student will know that:

-writing an effective research paper requires the selection, organization, and analysis of relevant content.

- clear and coherent writing occurs when the development, organization, and style are appropriate to task, purpose, and audience.
  - a sequence of components (introduction, body, and conclusion) along with relevant information and examples combine to ensure a clear product for readers.
  - a formal style makes assertions and conclusions more authoritative.
  - there are advantages and disadvantages of using different media to present a particular topic or idea.
  - relevant information must come from multiple, credible print and digital sources.
  - writers must follow a standard format for citation, attributing all information and concepts to their sources.

## **Assessments**

---

### Research Question

Formative: Other written assessments

Students must submit a research question and an explanation of what they plan to investigate and explain. The teacher will either accept the research question as appropriate for the project or work with the student to modify the question in order to make it suitable.

### Source List

Formative: Other written assessments

After consulting a variety of sources and considering their validity, accuracy, and credibility, students will compose a list of sources they plan to use for their projects. This list, which follows MLA format and style, will enable the teacher to assess students' skills in consulting a variety of media, gathering information, and discerning its usefulness.

### Thesis Statement

Formative: Other written assessments

After consulting a variety of sources and producing a source list, students will digest the concepts and information they have found and arrive at a thesis statement in preparation for the composition of their research papers.

### Research Paper Outline

Formative: Other written assessments

Students will formulate the sequence and flow of their ideas in an outline as further preparation for the composition of the research paper.

### Note Cards

Formative: Other written assessments

Students will record the specific data, ideas, quotes, and insights that they have found in their sources. Each

item taken from a source will have the name of the source and page numbers, if applicable.

Students will compile these fragments either on individual 3"x5" note cards or in digital format using a resource such as Evernote.

First Draft

Formative: Written Report

Students will compose first full-scale drafts of their research papers following MLA format guidelines, complete with parenthetical citations and a list of works cited.

Final Draft

Summative: Written Report

After receiving their first drafts back from the teacher, students will continue to revise and refine their work in consultation with their peers and the teacher.

## **Activities**

---

Project orientation, including explanation of objectives, activities, sequence, and schedule

Consultation period with Media Specialist in the Media Center

Class discussions, examples, and handouts related to each phase of assessment

Peer conferences and teacher consultation with individual students at all phases of the project

Completion, submission and assessment of each task: research question, source list, thesis, outline, note cards, first draft, and final draft

## **Activities to Differentiate Instruction**

---

Peer conferences and reviews at all stages of the project enable students of varying abilities to learn from and to assist each other.

Students who generate their own research questions and topics tailor their work to their interests and abilities

## **Integrated/Cross-Disciplinary Instruction**

---

The variety of topics that students take up will stretch across the entire curriculum.
