Course Overview

The 4th grade music curriculum will enhance and deepen the understanding and skills of the students as musicians. The units presented in this course will give students the tools for success for the high level performance standards expected at the middle school level. Students will continue to improve musical literacy, performance skills, knowledge of various instruments such as the recorder and the piano, and the history of music. These units are presented as "over-arching" due to the flexible and fluid nature of the topics in music and their connections to each other.
