VPA.1.3.12.B.CS2	The ability to read and interpret music impacts musical fluency.
VPA.1.3.12.B.CS4	Basic vocal and instrumental arranging skills require theoretical understanding of music composition.
CAEP.9.2.12.C.3	Identify transferable career skills and design alternate career plans.
TECH.8.1.12.A	Technology Operations and Concepts: Students demonstrate a sound understanding of technology concepts, systems and operations.
TECH.8.1.12.A.CS1	Understand and use technology systems.
TECH.8.1.12.E	Research and Information Fluency: Students apply digital tools to gather, evaluate, and use information.

Enduring Understandings

1. Dynamics and expression add color and interest to a performance or recording.
2. The use of wrists and arms, as well as fingers, contributes to articulation and dynamic production.
3. Score analysis lays the groundwork for both improved musicianship and performance.

Essential Questions

1. How does a musician use dynamics to shape phrases within a performance?
2. What roles do the arms and wrists serve in the production of different dynamic levels and articulations?
3. What is roman numeral analysis and how does facilitate the learning process?

Knowledge and Skills

Piano/Keyboarding students will be able to:

- Define various musical expressions and articulations as they apply to piano performance.
- Build associations between requested dynamic range and proper technical execution.
- Apply basic roman numeral analysis to simple compositions.
- Articulate the when, where and why of sustain pedal usage in a piece of music.
- Analyze root position seventh chords.
- Interpret basic chord symbols as applied to a lead sheet.
