## **Enduring Understandings**

---

Writing about nature allows authors to explore themselves as humans in relation to their environment.

Environmental writing can be persuasive, informative, or meditative.

We do not need to travel far to observe the natural world and produce effective environmental writing.

## **Essential Questions**

---

How has literature developed alongside, and as part of, the environmental movement?

What is the role of art and creativity in the environmental movement?

What are effective ways of raising awareness about important environmental issues?

## **Knowledge and Skills**

---

Students will use textual evidence to support oral and written arguments.

Students will write creative nonfiction.

Students will analyze the function of a text's structure.

Students will perform independent research.

Students will learn to keep an observational notebook.

Students will develop exhibitions (presentations, digital work, etc) to demonstrate their new understandings.

Assessment:

Students will work in small groups to create a photo essay on a local public location - school, park, downtown, bog-box store, mall, etc. They will design an accompanying presentation analyzing the ecological footprint of human choices in this location. Their analysis will bring in ideas from the texts read during this course.
