

07. IDK Projects: Teach us about something you like!

Content Area: **Science**
Course(s):
Time Period: **Semester 1**
Length: **4 weeks**
Status: **Published**

Standards

SCI.HS-LS1	From Molecules to Organisms: Structures and Processes
SCI.HS-LS3	Heredity: Inheritance and Variation of Traits
	Stability and Change
	Feedback (negative or positive) can stabilize or destabilize a system.

Enduring Understandings

- You can take “a lot” of information and digest it in a relatively short period of time so that it is meaningfully prepared and presented in an understandable way.
- Big Ideas can be "common language" to help others understand.
- One doesn't need to know everything about everything to learn something, develop an understanding, and present it professionally and competently.

Essential Questions

-Why is it important to understand how the human body works?

-What would happen if one system did not function properly?

- You can take “a lot” of information and digest it in a relatively short period of time so that it is meaningfully prepared and presented in an understandable way.
- Big Ideas can be "common language" to help others understand.
- One doesn't need to know everything about everything to learn something, develop an understanding, and present it professionally and competently.

Knowledge and Skills

NGSS Skills/Practices

- Asking Questions.
- Developing and Using Models.
- Analyzing and Interpreting Data.
- Using Mathematics and Computational Thinking.
- Constructing Explanations.
- Engaging in Argument from Evidence.
- Obtaining, Evaluating, and Communicating Information.

Knowledge:

- The course Big Ideas have connections to everything!
