

# G7: Consciousness - Chapter 5

Content Area: **Social Studies**  
Course(s): **Psychology**  
Time Period: **Semester 1**  
Length: **1 week**  
Status: **Published**

## Standards

---

SCI.9-12.B	Biopsychology
SCI.9-12.B.3	Consciousness
SCI.9-12.B.3.1	The relationship between conscious and unconscious processes
SCI.9-12.B.3.1.1	Identify states of consciousness
SCI.9-12.B.3.1.2	Distinguish between processing that is conscious (i.e., explicit) and other processing that happens without conscious awareness (i.e., implicit)
SCI.9-12.B.3.2	Characteristics of sleep and theories that explain why we sleep and dream
SCI.9-12.B.3.2.2	Describe the sleep cycle
SCI.9-12.B.3.2.3	Compare theories about the functions of sleep
SCI.9-12.B.3.2.5	Compare theories about the functions of dreams
SCI.9-12.B.3.3	Categories of psychoactive drugs and their effects
SCI.9-12.B.3.3.1	Characterize the major categories of psychoactive drugs and their effects
SCI.9-12.B.3.3.3	Evaluate the biological and psychological effects of psychoactive drugs
SCI.9-12.B.3.3.4	Explain how culture and expectations influence the use and experience of drugs
SCI.9-12.B.3.4	Other states of consciousness
SCI.9-12.B.3.4.1	Describe meditation and relaxation and their effects
SCI.9-12.B.3.4.3	Describe flow states

## Enduring Understandings

---

**The students will understand that:**

- 1. the different perspectives and controversies related to the existence of an unconscious mind.**
- 2. the brain creates consciousness when it combines external stimulation with internal experience.**
- 3. consciousness changes in cycles that normally correspond to our biological rhythms and to patterns of our environment.**
- 4. An altered state of consciousness occurs when some aspect of normal consciousness is modified by mental, behavioral, or chemical means.**
- 5. sleep plays a crucial role in our health and development, but the origin and**

**purpose remain disputed.**

### **Essential Questions**

---

- 1. How are there really different levels of consciousness?**
- 2. To what extent are there functional purposes for different levels of consciousness?**
- 3. In what ways does the Freudian model of the unconscious mind appear to be valid?**
- 4. How important is sleep? What is the purpose of sleep?**
- 5. To what extent are our brains inactive during sleep?**
- 6. Are dreams meaningful or more of a random process?**
- 7. What are the impacts of psychoactive drugs?**
- 8. Why do so many people ignore the potential dangers of psychoactive drugs?**
- 9. To what extent is hypnosis a real psychological phenomenon?**
- 10. To what extent are sleep disorders significant enough to keep in the DSM V manual?**

### **Knowledge and Skills**

---

#### **Learning Objectives (SWBAT)**

- Define consciousness.**
- Describe the different stages of sleep.**
- Analyze the different theories of dreaming.**
- Determine the common sleep disorders and their consequences.**
- Differentiate between the different theories of hypnosis.**

- Analyze why psychologists are suspicious of hypnotically enhanced memories.**
- Describe psychoactive drugs and their effects.**
- Differentiate among the different types of psychoactive drugs and their effects.**
- Analyze the consequences of addiction, tolerance, and withdrawal.**

## **Content**

### **A. Sleep and Dreaming**

### **B. Hypnosis**

### **C. Psychoactive Drug Effects**

## **Transfer Goals**

---

**Students will be able to independently create a new understanding of consciousness that includes the limits of multitasking and significance of sleep.**

## **Resources**

---

### **Textbook Reading:**

**Primary Student Textbook: Myers Psychology for AP**

### **Course Resources:**

1. Benjamin, Ludy T. Jr., eds. *Favorite Activities for the Teaching of Psychology*. Washington, D.C.: American Psychological Association, 2008.
2. Bensley, D. Alan. *Critical Thinking in Psychology: A Unified Skills Approach*. Pacific Grove, Calif.:

Brooks/Cole, 1998.

3. Hock, Roger R. *Forty Studies that Changed Psychology: Explorations into the History of Psychological Research*. 5th ed. Upper Saddle River, N.J.: Pearson/Prentice Hall, 2005.

4. Rolls, Geoff. *Classic Case Studies in Psychology*. London: Hodder Arnold, 2005.

5. Dream Analysis activity

6. Sleep inventory and debate

Additional Resources from WH databases, and articles connected to the content, including primary readings, historiography, and secondary sources.
