Enduring Understandings

1. The market for labor is similar to product markets, although in this case households are the suppliers and not the consumers.
2. Factor markets can help explain the skewed income distribution evident in the United States.
3. Income distribution disadvantages that led to Affirmative Action policies; issues of not hiring those in marginalized groups.
4. Equal pay for equal work - issues of women/gender discrimination

Essential Questions

1. How do basic economic concepts help explain real-world outcomes?
2. What are the nature and functions of markets?
3. What roles and impacts do governments have on an economy?
4. Should the government and legislation be involved in issues of working conditions and work-place discrimination for private companies?

Knowledge and Skills

Students will be able to.....

1. Calculate the marginal revenue products of labor and capital
2. Construct accurate graphs for the labor market
3. Who benefits from government made economic policies and how do this policies influence groups that have been left out/given limited economic opportunities i.e. Blacks, Asian-Americans/Pacific Islanders, immigrant groups (Irish), women, persons with disabilities
4. Calculate the profit-maximizing level of input and the trade-off between capital and labor
5. Explain the links between factor markets and income distribution in the US

Transfer Goals

Students will be able to independently.....

1. Use economic concepts and approaches to affect their personal decision making and to help them make sense of the real world economy
2. Determine the skills they need to succeed in a chosen labor market and plan their education and training accordingly and understand how their culture/intersectionality influence opportunities
