Enduring Understandings

1. Economic output is not necessarily the best measure of the health of a society
2. Poverty and unemployment are the result of structural issues in the economy
3. Inflation erodes purchasing power over time, but if wages keep pace it has no real effect

Essential Questions

1. How do basic economic concepts help explain real-world outcomes?
2. How do we accurately measure economic performance?
3. What measures do we use to best compare economies across time and space?
4. How are output, unemployment and inflation calculated?

Knowledge and Skills

Students will be able to.....

1. interpret a circular flow diagram of an economy
2. distinguish among the three ways of calculating Gross Domestic Product (GDP)
3. analyze and interpret GDP as a measure of performance
4. determine who is counted in the labor force and calculate the labor force participation rate
5. identify and calculate the components of the unemployment rate
 1. Compare unemployment rates for diverse groups including AAPI, African Americans, people with disabilities, different religious groups, different sexual orientations, gender - research and chart out disparities and explain why the differences exist
6. describe how inflation affects the economy
7. calculate and compare price levels

Transfer Goals

Students will be able to independently...

1. Use economic concepts and approaches to affect their personal decision making and to help them make sense of the real world economy.
2. Interpret real world macroeconomic data to form opinions of the economy and solutions to economic problems.
