## Enduring Understandings

---

1. Since prices are hard to affect in a competitive market, businesses focus on productivity and cost-cutting.
2. Governments might regulate monopolies rather than eliminate them in the interest of serving the public.
3. Since firms have little control over the price of their good, advertising and product differentiation become very important.

## Essential Questions

---

1. How do basic economic concepts help explain real-world outcomes?
2. What are the nature and functions of markets?
3. What roles and impacts do governments have on an economy?

## Knowledge and Skills

---

Students will be able to.....

1. Distinguish among the four categories of market structure and graph them correctly
  - Oligopoly
  - Monopolistic Competition
2. Construct side-by-side market and firm graphs illustrating how market price affects firm demand
3. Identify and explain the profit-maximizing level of output on graphs of costs and revenue curves
4. Distinguish among the possible outcomes of firms in a market:
  - Economic profits
  - Normal profits
  - Loss
  - Shut-down
5. Apply game theory to decision-making in oligopolistic competition

## Transfer Goals

---

Students will be able to independently.....

1. Use economic concepts and approaches to affect their personal decision making and to help them make sense of the real world economy
2. Identify and invest (or disinvest) in industries and businesses based on their economic fundamentals
